ENGINEER TRAINING MANUAL, UNITED STATES ARMY.

APPENDIX NO. 2.

INSTRUCTIONS FOR THE USE OF COMPANY AND REGIMENTAL FORMS.

GENERAL INSTRUCTIONS.

The ultimate end for which a company is created and maintained is to render perfect service on the field of battle. To attain this end many things are required and a realization of the correct proportion, each bear to the other is necessary.

Efficiency in paper work will not render the company efficient for field service. It is required by law and regulations and can not be slighted, nor done in a slipshod manner. If it is done thoroughly and accurately at first, it ends there. If it is done otherwise, it requires additional time of officers and enlisted men to correct the errors and mistakes. Time will thus be deducted from that allotted to other duties, and efficiency will decrease.

The instructions on the blank forms have the same weight as regulations and should be followed explicitly. Read the instructions before making out any form.

Company officers should know when a paper is right. The best way to learn when a paper is right is to make out a set of blanks yourself. Train your company clerk to do the work and train an understudy at the same time who can instantly replace the company clerk.

Individual records of enlisted men.—When a soldier enlists the following blank forms are filled out by the recruiting officer and mailed to The Adjutant General of the Army.

Enlistment paper, Form No. 22, A. G. O.

Physical examination for enlistment, Form No. 135, A. G. O.

Identification record card, Form No. 260, A. G. O.

NOTE.—Photograph and photographic negative required for Regular Army only (suspended during war).

Designation of beneficiary, Form No. 380, A. G. O.

The service record, Form No. 29, A. G. O., is also started by the recruiting officer and sent to the commander of the post, camp or regiment at the same time that the soldier is sent forward to the organization in which he enlisted or to which he is assigned.

The report of assignment in the service record is detached at the headquarters of the post, camp or regiment to which the soldier is sent and forwarded by the commander thereof to The Adjutant General of the Army. The service record itself is sent to the company to which the soldier is assigned by the post, camp or regimental commander.

EXPLANATION.

The model illustrates method of computing additions and deductions of rations, assuming that rations are drawn for a period of ten days. The additions and deductions should be made for the unexpired part of the full-ration period. Examples: Hughes went to hospital the morning of the 1st—10 rations deducted, he returned the morning of the 10th—1 ration added. The nine recruits received one meal on the 1st, which is disregarded, therefore, 9 days are claimed; they left after two meals on the 6th, therefore, 4 rations are deducted. The detachment from the field on the 6th left in the preceding month, and was rationed by the company. Not being present September 30 they were not drawn for, hence the full 10 days should be claimed. The figures on the 10th show that there were 96 men drawn for, and also the deductions and additions.

REMARKS.																											
Pvt Ramsey fr Desertion to Conf. P.M. 30th.																											

RECORD OF GENERAL EVENTS.

On Aug 1/17 1st Lieut. Smith, Sgts Adams and Ekstedt, Corps Jones, Smiley, Dean, and Ambrose, Cook Murphy, Pmts. Ennis, Johns, James, Miller, Oswald, Poe, Snow, Happy, Greene, Burress, Hines, Jordan, Law, Lane and William left Company on DS at Plattsburg, N.Y., The entire detachment (less Lieut. Smith) returned to company Aug 22/17.

On Aug 26/17 1st Lieut. Hearn, LC, and Sergts. Mole and Catts, and Pmts. Mann, Coke, and Morely, Med. Dep't. were attached to Company. Sergt. Catts and Pvt Mann were detached on 28th.

On Aug 12/17 the company proceeded to Edsall, Va., by marching, to participate in the annual target practice; distance marched approximately 22 miles; completed target practice on 19th and returned to Post Aug 20/17 by marching to Alexandria, Va., thence by Steamer to Post. Distance marched approximately 12 miles.

NOTES ON MORNING REPORT.

ABBREVIATIONS.

D.=Duty; i. e., available for any work.

S. D.=Special duty; i. e., duty different from the general routine work of the company.

D. S.=Detached service; i. e., on duty separated from the company.

E. D.=Extra duty; i. e., duty for which the man receives extra compensation.

A. W. L.=Absent with leave.

A. W. O. L.=Absent without leave.

Arrest means the restricting of the man to certain limits.

Confinement means actual confinement under guard.

Ration is the allowance of food for one man for one day.

In the case of a man leaving an organization after breakfast, the organization the man leaves loses the ration for the day and the organization to which the man goes gets the ration.

In the case of a man leaving an organization after dinner, the organization the man leaves, having furnished the man two meals draws his ration for the day, and the organization to which the man goes loses the ration.

Notes following apply to sample morning report.

(a) Twenty-two men dropped p. m. 1st; therefore rationed the 1st and dropped for 30 days. Officers not rationed.

(b) Sick in quarters, rationed with company, no rations dropped.

(c) Rationed in hospital.

(d) Dropped from company.

(e) Rations for this man were dropped on the 5th. His rations will be drawn by the prison mess.

(f) Officers not rationed.

(g) Rationed with company.

(h) Furlough (A. W. L.) to A. W. O. L. does not affect rations.

(i) Note the man picked up on receipt of his order and carried as absent.

(j) Casuals are men attached to the company for rations. They are carried on the morning report in red ink.

(k) Whenever the remarks are too long for the space given they are written in the general remarks in the back. Casuals are carried on memorandum to the ration return by name and organization so these names should be entered in the morning report.

(l) A. W. O. L. to desertion does not affect rations. Note that the man is dropped from the morning report, and is taken up again when confined on the 31st.

2. SICK REPORT.

DAILY SICK REPORT

OF

Co. D. 5th Engineers
(Organization)

From *Aug 1*, 1917

To *Aug 1*, 1917

INSTRUCTIONS.

The report will be signed by a commissioned officer of the company and by the medical officer on the line immediately following the last entry for the occasion, each officer using only one line for his signature and title and signing under the items of his report. The first entry for each succeeding occasion will be made on the line immediately following the signatures of the officers.

The report of the company officer will, if practicable, be completed before the report is sent to the medical officer.

If the company officer can not state whether the alleged sickness or injury originated in the line of duty, he will write an interrogation mark (?) in the column provided for such expression of opinion.

In order that the report may be clear, assurances are prohibited. A line drawn across an erroneous entry will sufficiently indicate its obliteration. All observations and corrections must be authenticated by a centurion of the company making them, written on the margin of the page.

The report will be carefully preserved with the records of the company as prescribed in Army Regulations or orders of the War Department.

LINE OF DUTY.

Every disease or injury suffered by an officer or soldier while in the military service of the United States should be reported as originating in the line of duty, unless the reporting officer knows personally or by credible information: First, that the disease or injury existed before the man entered the service; second, that it was incurred while the man was absent on furlough or without permission; or, third, that it resulted from wilful neglect or immoral conduct of the man himself.

REMARKS.

In making out the "Sick report" each day the names of all those who were indicated on the preceding day as being in "hospital" or "sick in quarters" will be copied; also any additional names of members of the company who require medical attention. The medical officer indicates under the heading "Disposition" whether the men whose names appear in the report shall be returned to duty, admitted to the hospital, or carried as sick in quarters. He also determines whether or not the illness is in line of duty, and if it comes under the provisions of G. O. 31, 1912, he makes the notation "No. G. O. 31, 1912," under the heading "Line of duty."

The "Sick report" is used continuously until the book is filled.

The signature of the medical officer and of the company commander are written on the line following the last name for that day.

I Certify that this Ration Return is correct and that the last regular issue of rations was made by Captain
K.E. Oliver, MC. Quartermaster at Washington Barracks, D.C., to include
date of August 31, 1917 that the emergency rations entered (if any) are required for the enlisted men of
my command and the money value of all previously drawn and improperly opened or lost has been charged against the persons respon-
sible; that the civil employees for whom rations are required (if any) are entitled thereto under the regulations, and that the articles,
other than rations, above requested are necessary for the public service.

or meat canned.....	16 ounces.....		
Hard bread.....	16 ounces.....		
Coffee, roasted and ground.....	1.12 ounces.....		
Sugar.....	2.4 ounces.....		
Salt.....	0.16 ounce.....		

One day in each alternate month of the season of practical instruction, not exceeding three days in each year, the use of the reserve ration with individual cooking will be required by all troops in the field for purposes of instruction.

4. FIELD RATION.

The field ration is the ration prescribed in orders by the commander of the field forces. It consists of the reserve ration in whole or in part, supplemented by articles of food requisitioned or purchased locally, or shipped from the rear, provided such supplements or substitutes correspond generally with the component articles or substitutive equivalents of the garrison ration.

6. EMERGENCY RATION.

The emergency ration is furnished, in addition to the regular ration, as required for troops on active campaign or in the field for purposes of instruction, and will not be opened except by order of an officer or in extremity, nor used when regular rations are obtainable.

Ration returns upon which emergency rations are drawn will bear the certificate of the organization commander that such rations are required for the enlisted men of his organization and that the money value of any rations previously drawn by him, and improperly opened or lost, has been charged against the person responsible.

Company and detachment commanders are responsible for the proper care and use of emergency rations carried on the person of the soldier. (C. A. R. No. 8, June 15, 1914.)

1207. In adjusting charges to be made against enlisted men or others on account of increased expense to the Government for their subsistence, the value of the garrison ration will be estimated at 30 cents, the Filipino ration at 20 cents, and the travel ration at 40 cents.

LIQUID COFFEE.

1208. When an enlisted man or an applicant for enlistment, supplied with cooked or travel rations, travels unaccompanied by an officer, and it is impracticable to cook coffee en route, he may be supplied with funds for the purchase of liquid coffee in lieu of the coffee, milk, and sugar components of the travel ration, at the rate of 21 cents a day for the number of days that the travel is expected to cover, to be paid to each man on the order of the commanding officer who directs the journey, a copy of the

order being filed with the voucher on which payment is made. When an enlisted man or an applicant for enlistment, supplied with cook or travel rations, travels under the command of an officer, and it is impracticable to cook coffee en route, funds at the rate of 21 cents a day for a similar purpose may be transferred to the officer to be disbursed and accounted for. At the end of the journey all money in excess of 21 cents a day for each man for the actual number of days traveled will be transferred to the nearest quartermaster. Should any part of the 21 cents a day for the actual number of days traveled be unexpended it will be transferred to company commanders pro rata, to be taken up by them as part of the company fund. When recruits en route to different organizations or corps serving at over-sea stations arrive at a recruiting depot, however, the unexpended funds will be transferred to the mess officer and taken up by him as part of the mess funds. (C. A. R. No. 53.)

EXTRACT FROM ARMY REGULATIONS, PARAGRAPH 1215.

1. Soap:

To organizations of enlisted men—

For each ration, 0.64 ounce.

For use in bakeries, and for use of prisoners in guardhouses and military prisons—

Such quantities as the commanding officer may order as necessary.

For each ration issued to troops in the field, in active campaign only, in addition to the foregoing, 0.25 ounce hand soap to be issued in ounce cakes.

2. Candles, when other illuminants are not furnished by the Quartermaster Corps:

To organizations of enlisted men—

For each ration, except the Filipino ration, 0.24 ounce. In Alaska, 0.32 ounce.

For each Filipino ration, 0.12 ounce.

To headquarters in the field of organizations larger than a company, to hospitals, bakeries, depots of supply, guards, and telegraph stations—

Such quantities as the commanding officer may order as necessary.

3. Lantern candles:

For use in lanterns furnished to the Army by the Government and used in the public service—

Such quantities as the commanding officer may order as necessary.

4. Matches:

For lighting fires and lights, for which fuel and the illuminating supplies are issued—

Such quantities as the commanding officer may order as necessary.

5. Toilet paper:

For use of enlisted men stationed at military posts, camps, and rendezvous provided with modern water-closets, with sewer connections, or where sanitary conditions require its use.

To organizations of enlisted men—

One package or roll of 1,000 sheets for every 60 rations.

For use in water-closets of offices, post gymnasiums, guardhouses, bakeries, and post exchanges—

Such quantities as the commanding officer may order as necessary.

6. Salt, rock:

(See) John A. Wood,

Colonel, Corps of Engineers, Commanding.

Quantities stated in column "To be supplied" issued. Issues in excess of allowance made from savings during current fiscal year

8. Flour:

For paste used in target practice—

For each troop or company, 50 pounds, and for each battery of Field Artillery, 100 pounds during the practice season.

9. Towels, huck:

For use in the offices of regimental headquarters when adjuncts of post headquarters, and in the offices of post and coast defense staff officers, in bakeries, and in offices of department and depot quartermasters, when the necessity for the issue is certified to by the commanding officer—

For each person whose employment therein is authorized, not to exceed two towels a year.

10. Ice:

To organizations of enlisted men, when practicable—

For each ration, 4 pounds, the maximum allowance to any organization or detachment of less than 100 men to be 100 pounds a day, and to organizations of 100 men or more to be 1 pound a day for each man.

To troops stationed north of the thirty-seventh parallel of north latitude and where from any cause it is impracticable to cut and store ice for their use, the allowance will be for seven months only, beginning April 1 and ending October 31, except in the States of Washington, Oregon, and Idaho, where during the remainder of the year one-half of such allowance may be issued, and in the State of California, where the full allowance may be issued for the entire year.

To troops stationed south of the thirty-seventh parallel of north latitude the full allowance may be issued for the entire year.

At posts where it is practicable during the cold season to cut and store ice required, no issues of ice will be allowed from funds of the Quartermaster Corps as long as such stored ice is available.

For the preservation of subsistence stores—

Such quantities as the commanding officer may order as necessary

When ice plants are in operation the issue of ice therefrom will be made upon requisition approved by the commanding officer and not supplied by purchase.

11. Housewives:

To each squad annually, when the necessity for the issue is certified by the commanding officer, for service in the field, 1 housewife.

Department commanders are authorized to increase or decrease, without reference to the War Department, but with due regard to the interests of the service and existing law, the various allowances specified in this paragraph.

Whenever such action is taken the department quartermaster will be informed thereof and will submit a copy of the authority directly to the quartermaster general. When issues are made under the increased or decreased allowances herein referred to, the issuing quartermaster will note on his return the letter of authority for the issue, but a copy of the authority will not be required with the return. (C. A. R., Nos. 12, 17, 35, and 41.)

NOTES.

Forage requisitions are made out at the beginning of every month or at such other times as necessary. When made during the month for animals that have just arrived, they are called special requisitions. In the case of special requisitions, there are no additions or reductions to be made. The number of animals is stated in the form (Q. M. C. Form 218), and the rations computed from the date of arrival to the end of the month.

The forage requisition at the beginning of each month is made out as follows:

In the first column is stated the number of animals on hand the first day of the preceding month plus the number for which special requisitions were made.

In the "Addition" column is stated the number of animals that were attached to the company during the preceding month for which no special requisitions were made.

In the "Deductions" column is stated the number of animals detached during the preceding month.

Then the net total is figured adding the additions to and subtracting the deductions from the original number.

Rations are computed for the net total by multiplying the net total by the number of days in the month for which the rations are to be drawn.

Explanation of additions and deductions are made as shown in the sample requisition above.

The amounts of grain, etc., are then computed from A. R. 1077 (see below), and these amounts are stated in the column "Required allowance."

The amounts "on hand" are computed from the "Explanations of additions and deductions" by taking the difference between the minus rations and the plus rations for the different classes of animals and multiplying these differences by the allowance of grain, etc., for the various classes. The difference between the amount required and that on hand gives the amount to be supplied.

INSTRUCTIONS.

GENERAL.

1. The duty roster for troops, batteries, companies, and detachments shows the names of all enlisted men of the organization, and consists of two parts:

The roster for guard duty;

The roster for other duties.

The man longest off duty (as indicated by roster numerals in the former case, and by the "date when last performed" in the latter) is the first for detail for such duty.

GUARD ROSTER.

2. Each man is each day credited with the number of days that he has remained present and available for duty since the beginning of his last tour.

3. When nonavailable on account of absence without leave, in arrest, in confinement, or on pass, men will be credited the same as they would have been had they remained present and available for duty, the numerals being inserted in the same square just above the letters indicating their proper status. Men returning to duty from sick, from furlough, detached service, extra duty, or special duty all start in where they left off. Departures from this instruction may be authorized by the commanding officer when a strict application would allow an improper advantage or work hardship.

4. The abbreviations should be strictly adhered to.

5. If available, but not required for guard duty, in the proper place opposite the soldier's name will be placed the numeral showing the number of days since he performed guard duty. The performance of a tour of main guard duty is indicated thus:  Any special guard duty, such as stable guard, may be similarly indicated, with the addition of the initial letter in the open half space, thus: 

6. The detail for supernumerary should, as a rule, fall on the man next for detail. This, however, may be varied so as to "even up" the detail.

ROSTER FOR OTHER DUTIES.

7. At the beginning of the month insert in the proper column, opposite each man's name, the date when he last performed the duty specified, using the abbreviated name of the month and the numeral.

8. When a detail for any one of these duties has been determined upon (in accordance with the general instructions) draw a line through this date and insert in the same space the numeral indicating the day of the month. If detailed again for this duty during the month, draw a line through this last date and again insert in the same space the new numeral, and so on. (See model roster.)

9. The necessary entries relative to any regular duties not specified on the roster will be shown in one of the

blank columns provided for that purpose, the nature of the duty being shown in the heading of the column.

10. In case of a detail for detached service, a hyphen should follow the numeral, which merely indicates the day of departure. But, since detached service is the only variable duty as regards length of time, it is the day of return that determines "when last performed;" hence, upon the man's return from detached service, draw a line through date of departure and insert the date of return after the hyphen.

11. At the end of the month the dates when last performed are transferred to the proper spaces on the roster for the ensuing month.

ABBREVIATIONS FOR GUARD ROSTER.

I CERTIFY that the foregoing account is correct; that payment therefor has not been received; that I have not been absent on leave, either sick or ordinary, during the period covered by this voucher, except as above stated; and that neither I, my family, nor anyone dependent upon me has occupied public quarters, nor been furnished heat or light by the United States during the period for which commutation is charged.

I further certify that during the period for which commutation of heat and light is charged I actually occupied as quarters at 1723-18th St., N.W. Washington D.C., two rooms, exclusive of baths, closets, halls, pantries and storage rooms, and of parlors, lobbies, dining rooms, sitting rooms, halls and kitchens used in common with other tenants or guests (not guests of family); and that during the period of leave, as stated above, said quarters were occupied actually and exclusively by myself, or self and family, or some one dependent upon me.

INSTRUCTIONS.

1. Where an officer and his family occupy rooms it will be considered that such rooms are occupied exclusively by himself.
2. Rooms used in common with others and not under exclusive control of the officer, such as public parlors, lobbies, dining rooms, sitting rooms, halls and kitchens, can not be considered rooms exclusively occupied; nor can halls, closets, pantries, storage, and bath rooms be considered rooms.

* Regular Army Reserve.

* Enlisted Reserve Corps.

* National Guard, State of _____

SERVICE RECORD

OF

Johnson,
(Surname.)

George A.
(Christian name.)

Private, Co. "D" 5th Regt. Engrs.

(Company and regiment or arm or corps or department for which enlisted.)

* Strike out words not applicable.

INSTRUCTIONS.

1. *Opening of record.*—When a soldier is enlisted or reenlisted a service record on this form will be opened for him by the recruiting officer, who will fill out the Descriptive List, page 2, the Prior Service, and the first part of Current Enlistment, page 3. Other data called for by the printed headings or by these instructions will be supplied from time to time as occasion arises by the soldier's company or detachment commander, care being taken to make the record complete and to keep it up to date at all times.

2. *Forwarding to first station.*—When a soldier is sent from the recruit depot to a post, camp, or regiment, for assignment, the adjutant, or other designated officer, at the depot will fill out the first indorsement and turn the service record over to the officer or noncommissioned officer in command of detachment of departing recruits; or, if no officer or noncommissioned officer be placed in command, the service record will be forwarded by mail to the proper commanding officer.

3. *Transmission to company.*—Upon assignment of a soldier to a company, the post, camp, or regimental commander will transmit the service record to the commanding officer of the company to which he is assigned, detaching the report of assignment and forwarding same to The Adjutant General of the Army.

4. *Soldiers transferred or detached.*—When a soldier is transferred or detached from his company, the company commander will fill out the second indorsement and transmit the service record to the soldier's new commanding officer in the manner prescribed in paragraph 2, above, in the case of soldiers leaving recruit depots. Subsequent indorsements will be filled out as the soldier's change of station or status requires, the original service record thus following the soldier wherever he goes. Each commanding officer forwarding the service record will retain an official copy of his indorsement, to which will be added the name of the soldier for purpose of identification.

5. *Data to be included in indorsements.*—Each indorsement will give the reason for the soldier's change of station or status, and his character, and will contain a full statement of his accounts at the time. Under the heading "Due United States" will be noted all authorized stoppages for loss of or damage to Government property or supplies; amounts due on account of allotment, post exchange, post laundry, tailor, company fund, or transportation; and stoppages, including detained pay, under sentence of a court-martial and on account of absence from duty because of disease resulting from the soldier's own intemperate use of drugs or alcoholic liquor, or other misconduct. In short, all information required to be entered on muster roll and pay roll will be incorporated in the indorsement on the service record, the wording of the indorsement conforming to model remarks for such rolls prescribed by the War Department.

6. *Soldiers furloughed to reserve.*—When a soldier is furloughed to the reserve, his service record will be forwarded by indorsement to the officer charged with keeping his records as a reservist. If the soldier is detached from his company at the time he is furloughed to the reserve, a copy of the indorsement forwarding the service record will be furnished his former company commander without delay.

7. *Soldiers discharged, etc.*—When a soldier is discharged or otherwise separated from the service without being furloughed to the reserve, his service record will be closed and filed with records of his company. If he is absent from his company at the time, the officer under whom he is serving will promptly transmit the service record to the company commander for file. The service record of a soldier discharged or otherwise separated from the service while in the reserve, will be closed and filed by the officer charged with keeping the reservist's record.

8. *Record of court-martial.*—When the service record of a soldier shows a sentence by court-martial, it will be accompanied by an authenticated copy of the record of summary court-martial, or by an official copy of the order promulgating sentence in case of conviction by a general or special court-martial.

9. *Procedure in case of lost record.*—In the event that a service record is lost a report of the fact will be made to The Adjutant General of the Army, who will start a new service record, transmitting same to the recruit depot or station at which the soldier was enlisted. The new record will then be forwarded in turn to the commanding officers of the companies in which the soldier has served during current enlistment, each commanding officer repeating the indorsement required by paragraph 4, and making appropriate entries in the body of the record. Pending receipt of the new service record the soldier's pay and duty status will be determined from the data shown on the last pay roll on which his name appears, and from other records of the company or detachment with which he last served.

10. *Changes in entries.*—Erasures of entries on a service record are prohibited. All changes in original entries must be made by drawing lines through the entries and each change will be duly authenticated by the signature of the officer making it, the reason for the change being stated.

11. *Additional space for entries.*—In case the space under any heading, except "Deposits" in the body of the record proves insufficient, the entry will be continued under "Remarks," page 5. If the space under "Remarks" or "Deposits" is insufficient, additional sheets will be securely pasted at the bottom of the page, as indicated by footnote. If the space for showing change of station or status in an indorsement is insufficient, the entry will be continued under "Due United States." One indorsement may, if necessary, occupy the space allotted to two. If there be more than 12 indorsements, an additional sheet will be securely pasted at the bottom of the last page of the form, as indicated by footnote. Under no circumstances will sheets or slips of paper be pasted or attached to a service record except as provided above.

12. *Initiating of entries.*—Each entry under "Military Record," pages 4 and 5, "Clothing Account," pages 6 and 7, and "Allotments," page 7, will be initiated by the recruiting officer or company commander, as the case may be. Where there are no data of record relating to a printed heading, the space under that heading will be left blank, except that in case of transfer to another organization or furlough to the reserve the company commander will insert his initials in such blank spaces to show that he has not overlooked the entries. Negative entries, such as "None," "Nothing," etc., will not be made in any part of the form except as required for street and house number and indorsements.

INSTRUCTIONS FOR COMPANY COUNCIL BOOK.

1. Paragraph 1220, Army Regulations, 1913, requiring that money accruing from the ration and savings account of an organization will be spent only for food, makes it necessary to keep the receipts and expenditures on account of the company mess separate from other funds.

2. Entries for receipts should state date of entry, from whom (person or firm), what for, for what period (in case of savings, post exchange dividends, pay from boarders, etc.), and amount. Should a receipt not be for a period, but only for a single transaction, the date of the receipt also should appear, if different from the date of entry.

3. Entries for expenditures should show date of payment, to whom paid, what for, and amount; all briefly, but with essential points covered and with care and exactness.

4. To facilitate inspection by post or battalion commanders and others, the vouchers should be put in proper shape and filed in proper order. Every voucher should be folded to convenient size for handling, pasted on proper size paper, if necessary, and indorsed, for instance, thus on the first fold:

No. 6.
January 7, 1915.
\$50.

5. There should be a voucher for all moneys received, from whatever source, and for all moneys expended. For example, in case of the company pool collections, when the money is turned over to the company commander a voucher of this tenor should also be turned in:

MADISON BARRACKS, N. Y.,
January 7, 1915.

Turned over to Capt. John Smith fifty dollars (\$50), collections from the company pool table for December, 1914.

H. A. JONES,
Q. M. Sergt. Co. C, 24th Infantry.

Under rare circumstances, especially in the field, it may happen that it is not practicable to get a receipt for money expended. In such case the officer should certify to the expenditure, using his certificate as a voucher.

6. In case of transfer of the company fund, a receipt of this form is suggested:

Received from First Lieut. John A. Smith, Twenty-fourth Infantry, the fund of Company A, Twenty-fourth Infantry, amounting to \$500, as follows:

Bank.....	\$450
Cash.....	50

JAMES JONES,
Captain, 24th Infantry.

To transfer a company fund that is deposited in the bank, it is merely necessary to write the cashier of the bank a letter of this tenor:

I have the honor to inform you that I have this day transferred the company fund, Company C, Twenty-fourth Infantry, to Capt. John Smith, Twenty-fourth Infantry, who will from now on have authority to draw against the fund.

His signature appears below.

Or a check for the amount in the bank may be drawn in favor of the relieving officer and turned over to him:

Caution.—When receiving a company fund, always obtain from the former custodian a certified statement showing: (a) All bills that the company owes, (b) all amounts due the company, and (c) a list of outstanding checks. If the company owes no bills, if nothing is due the company, and if there are no outstanding checks, these facts should be stated. This certified statement should be made on an appropriate page in the company fund book.

7. When deposited in a bank the company fund should be deposited, for instance, as "Company fund, Company C, Twenty-fourth Infantry," and all checks drawn against the fund should be signed, for instance:

COMPANY FUND, Co. C, 24th Infantry.
JOHN A. SMITH,
Captain, 24th Infantry.

10. ADVICE OF SOLDIER'S DEPOSITS.

Enlisted men desiring to make deposits with the quartermaster bring their deposit books (Form 41, Pay Department) to the company office before pay day. The company clerk fills out the deposit book with the exception of the signatures.

After being paid the enlisted man gives the quartermaster the amount he desires to deposit. The quartermaster and the company commander sign the deposit book and return it to the soldier.

The company clerk enters on Form Q. M. C. No. 8a all deposits made with the quartermaster by the enlisted men of the company for the pay day in question. This form is prepared in duplicate, one copy being sent by the company commander to the Quartermaster General, the other copy being retained with the records of the company.

The company clerk enters the deposit on the service record of the soldier and the company commander initials it.

[illegible]

I certify that this muster roll is made out in the manner required by the printed instructions; that the remarks set opposite the name of each officer and soldier are accurate and just; and that it exhibits the true state of the organization for the period mentioned herein, as required by Regulations and the Rules and Articles of War.

STATION: Washington Barracks, D.C.

DATE: ... August 31, 1917.

John A. Dodd

Captain, Corps of Engineers.

Commanding the Organization.

I certify that I have carefully examined this muster roll, and that I have mustered and minutely inspected the organization, the condition of which is found to be as expressed in my remarks hereunto annexed (see note *)

MILITARY APPEARANCE: Excellent...

ARMS: Very Good

ACCOUTERMENTS: Very Good

CLOTHING: Very Good

J. A. Wood

Colonel, Corps of Engineers.

Inspecting and Mustering Officer.

*NOTE.—It is made the special duty of the inspecting and mustering officer to add the appropriate remarks according to the facts determined in the course of his inspection, with such other remarks as may be necessary or useful for the information of the War Department. He will also see that the roll is signed by the proper officer; that the absentees are recorded in the column provided for that purpose, and that the roll in the whole is correct.

All officers, noncommissioned officers, and others concerned in the preparation of this roll, are enjoined to exercise great care to make the roll complete. When filed in The Adjutant General's Office, the roll will become the record to which reference will thereafter be made in the liquidation and settlement of claims or questions affecting the officers and enlisted men whose names are borne on the roll, and their heirs, for the period covered by it.

INSTRUCTIONS FOR THE PREPARATION OF MUSTER ROLLS.

1. NAMES TO BE ENTERED ON ROLL.—All officers and enlisted men will be taken up on the rolls from the date of receipt of notice of their assignment by competent authority, whether they have yet joined or not, and will be entered in the following order: First, commissioned officers belonging to the organization in order of rank; second, commissioned officers attached to the organization in order of rank; third, noncommissioned officers in the order of the grades given in paragraph 9, A. B., the names under each grade heading appearing in the order of the dates of warrants; fourth, all others, except musicians and privates, in alphabetical order of grade; fifth, musicians; sixth, privates. The names of the men under each grade heading, except noncommissioned officers, will appear alphabetically. [Lance corporals will be carried under the heading of privates.] The names and the grade headings (1st sergeant, quartermaster sergeant, sergeants, corporals, etc.), which will precede the names under each different grade, will follow one another without interval except when made necessary by the use of two or more lines in the column for "Remarks," after a name. In all cases the last name will be written first, e. g., Smith, John A., not John A. Smith. In the case of recruits forwarded from recruit depots, the receipt of the descriptive and assignment card will be considered as the notice of assignment. Care will be taken to have names of soldiers and dates of enlistment correct. The names of officers attached to an organization will be borne on the muster rolls of the organization to which attached, but the names of the enlisted men attached will not be borne on the muster rolls of the organization but on a separate (detachment) roll.

2. REMARKS.—Under the head of "Remarks" will be carefully stated opposite the name of the person concerned:

- (a) **Assignment.**—The date when any assignment takes effect, with number and source of order therefor;
- (b) **Date of Joining.**—The date that any officer or enlisted man joins, whether originally or from any absence, and, if originally, the source of gain;
- (c) **Command, Assignment to or Relief from.**—The date an officer assumes or is relieved from any command;
- (d) **Changes of Rank or Grade.**—All changes of rank or grade, with dates of changes, and numbers and sources of orders;
- (e) **Sentences.**—All sentences, with dates of same and numbers and sources of orders;
- (f) **Absence.**—All cases of absence of twenty-four hours or more, the nature and commencement of, and periods authorized, with numbers and sources of orders; and this will be stated on the first roll, and on subsequent rolls, while such absences continue, will be noted since See roll (period) 191.; and in case of absence on detached service, sick, or in confinement, the place of absence will be set forth; (Nature of absence) (Month, date, year) (First roll bearing entry)
- (g) **Injuries or Wounds.**—All injuries or wounds received during the period covered by the roll, and whether or not contracted in line of duty;
- (h) **Confinement.**—All cases of confinement, with dates; and when by civil authority the nature of the offenses, whether prisoners have been held for trial, tried, or discharged without trial, and, when tried, whether acquitted or convicted;
- (i) **Medal of Honor and Certificate of Merit.**—On the first muster roll after receipt of notice of the award of a medal of honor or certificate of merit, the fact of the award, together with the date of the engagement and the cause of the award, will be noted;
- (k) **Discharge.**—Opposite the name of every soldier discharged will be noted whether he was honorably discharged, dishonorably discharged, or discharged; whether or not his service was honest and faithful; the character given on the discharge certificate, or if none so state; all unauthorized absences exceeding one day, also absences from duty on account of sickness, the result of misconduct, and while serving sentence of a court-martial and the time held in confinement awaiting said sentence, with dates, or if no such absences are of record that fact will be stated. When the reenlistment of a soldier is not recommended, that fact and the reasons for such action will be noted on the roll, except in the case of a soldier discharged on surgeon's certificate of disability.

3. CHANGES SINCE LAST MUSTER:

- (a) **Those Who Have Ceased to Belong to the Command.**—The names of those belonging to the command will be immediately followed by those of the officers and enlisted men who have ceased to belong to it since last bimonthly muster. These will be classed in the following order: Discharged, transferred, died, retired, deserted, dropped; and the utmost particularity will be observed in the remarks concerning them; dates and places will in every case be given; and numbers, and sources of orders, or description of authority, be always carefully given. When transferred to the Army Reserve, the character given on the descriptive card will be stated, and if transferred prior or subsequently to the date on which he was eligible for transfer the reasons therefor will be given. Under each heading the names will appear in the order prescribed in Instruction 1.
- (b) **Retention Beyond Date of Enlistment.**—When soldiers are retained in service beyond the period for which they were enlisted, as shown by the date of their enlistments, the cause of such retention will be stated.
- (c) **The Names of Soldiers Discharged and Reenlisted,** or who have deserted and rejoined from desertion since last bimonthly muster, will be placed both in the body of the roll and under the appropriate headings as having been discharged, having deserted, etc.
- (d) **Deserters.**—The date and place of the return of a deserter to military control, whether he surrendered to or was apprehended by the military or civil authorities, and in the latter case the date of surrender or apprehension, will be noted on the first roll. On subsequent rolls until the result of the trial has been published, or the case otherwise disposed of, will appear the remark "Awaiting trial (or result of trial) for desertion. See roll for 191..." On the rolls following the final disposition of the case will appear the data given on the first roll, and also the date, with number and source of the order announcing the man's return to duty or the result of the trial, including nature of offense of which convicted. [Note.—The restoration to duty without trial of a deserter by competent authority, i. e., the commander who would have been authorized to direct his trial, entailing the imposition of the forfeitures and stoppages prescribed by Army Regulations, can be ordered only in case the desertion is admitted, and must not be confused with the removal, by the order of such a commander or the War Department, of a charge of desertion erroneously entered on the rolls against a soldier, such removal operating to relieve him from any and all stoppages to which he may have been subjected on account of his supposed desertion.]
- (e) **Desertion and Fraudulent Enlistment.**—(1) Upon the apprehension or surrender of a soldier there will be noted on the first roll of the organization from which he deserted the date of apprehension or surrender, the name under which he fraudulently enlisted, and the place where confined awaiting trial; and on roll of organization in which serving fraudulent enlistment, the date of apprehension or surrender, the organization from which soldier deserted, and the name under which he served therein. (2) If convicted of desertion and fraudulent enlistment and sentenced to be dishonorably discharged, the soldier will be discharged from the organization from which he originally deserted, as of name and date of enlistment under which he was serving therein, and his name dropped from the records of the organization in which fraudulently enlisted. (3) If not dishonorably discharged but held to serve balance of legal enlistment, the soldier will be held as of the name and date of that enlistment and his name dropped from the records of the organization in which he was serving under fraudulent enlistment. (4) If held to service as of fraudulent enlistment and ordered discharged from enlistment from which he deserted, the soldier will be discharged from the organization from which he deserted and held to service as of the date and name under which he fraudulently enlisted.

4. **ABBREVIATIONS.**—The abbreviations authorized in the preparation of the pay roll may be used on the muster roll.
5. **EXTRA SHEETS.**—If additional space be found absolutely necessary, the roll will be enlarged by stitching into the middle of it an extra sheet or sheets, Form No. 61-1, A. G. O., provided for that purpose. Under no circumstances will half sheets be used or pieces of paper be attached to the roll. Paper fasteners, wire, or paste will not be used in joining the sheets of the roll.
6. **USE OF TYPEWRITER OR LEAD PENCIL IN THE PREPARATION OF ROLLS.**—The preparation of muster rolls on a typewriting machine is authorized provided a black record ribbon of standard quality is used. The original copy of the roll will be forwarded to The Adjutant General's Office. Carbon copies of rolls will not be forwarded to that office. Rolls will not be prepared or signed with lead pencil of any kind.
7. **DOTS AND "DITTO."**—The use of dots and the word "ditto" is prohibited.
8. **RULED COLUMNS.**—The ruled columns will not be used for purposes other than as stated in these instructions or indicated in the printed headings.
9. **CORRECTION OF ROLLS.**—Corrections on muster rolls, after muster and before they have been forwarded to The Adjutant General of the Army, will only be made with the approval of the mustering officer. Retained rolls will not be changed until authority therefor has been obtained from The Adjutant General.
10. **DETACHMENTS.**—This roll will not be used to muster detachments.
11. **DISPOSITION MADE OF ROLLS.**—Within three days after each bimonthly muster, the mustering officer will forward to The Adjutant General of the Army a copy of the muster roll of each company, battery, troop, or detachment. A duplicate of the muster roll will be retained. Blanks will be supplied from the Adjutant General's Department. The roll for The Adjutant General's Office will be folded evenly in three folds, with the brief on the outside. It will not be folded or creased to fit an envelope, but will be mailed in an envelope of the proper size or in a wrapper made especially for the purpose.

A SHEET OF MODEL REMARKS WILL BE FURNISHED UPON APPLICATION TO THE ADJUTANT GENERAL OF THE ARMY.

GENERAL ORDERS, }
No. 40. }

WAR DEPARTMENT,
Washington, August 30, 1916.

The instructions for the preparation of Army pay rolls and authorized abbreviations published as Quartermaster Corps Form No. 70, and model remarks for Army pay rolls published as Quartermaster Corps Form No. 69, are hereby rescinded, and the following is published in their stead for the information of all concerned:

INSTRUCTIONS FOR THE PREPARATION OF ARMY PAY ROLLS.

1. The pay rolls are not only the guide for the immediate payment of the troops interested, but when filed in the Treasury Department they become the record to which reference will thereafter be had in the investigation and settlement of claims or questions affecting the pay of the men whose names are borne thereon for the period involved. All officers are therefore enjoined to exercise every care to make the pay rolls with which they are concerned complete in every detail.

2. COMPOSITION OF A PAY ROLL.

A pay roll will be made up of one copy of War Department Form No. 366 and as many forms 366a as may be necessary, fastened together along the edge indicated by sewing or by means of a stapling machine or other permanent fastening, but not by use of glue or mucilage.

3. NUMBER OF COPIES AND DISPOSITION OF SAME.

Pay rolls will be made out in triplicate, and dated from the first to the last day of the month. Two of the three copies (one being the signed roll) will be forwarded to the quartermaster and the third copy duly extended will be retained with the records of the organization.

4. SIGNING OF ROLLS.

Only one copy will be signed by the men, and when carbon copies are made the original will always be the copy to be signed. The roll to be signed will always be completed and fastened together before being signed. When it is known that payment is to be made by check none of the rolls will be signed by the men. Only men who are to be paid will sign the roll; those who for any reason are not to be paid will not sign; if, however, in such case, the roll be inadvertently signed, the signature will be erased. In cases of stoppages equaling or exceeding the pay due, complete data will be carried to the next succeeding rolls until a sufficient amount of pay is due to satisfy all stoppages and leave a balance for the soldier. (See par. 15 below.) If for any reason a soldier whose name appears on the pay roll does not sign the roll and is not to be paid by check, a line will be drawn through the space intended for his signature.

5. TYPEWRITTEN AND CARBON COPIES AUTHORIZED.

The preparation of pay rolls on a typewriting machine is authorized provided a record ribbon is used. The making of carbon copies is also authorized, but they must be clear and legible throughout, and the original copy and the first carbon copy must be forwarded to the quartermaster, who will in turn forward the original copy, with his account current, to the Quartermaster General of the Army. Quartermasters will not be required to accept carbon copies that are not clear and legible throughout, and they are authorized to return illegible copies with request for legible ones.

6. NAMES TO BE ENTERED ON ROLL.

The names of officers of the Regular Army will not be entered on the roll, but all enlisted men will be taken up thereon from the date of receipt of notice of their assignment, whether or not they have yet joined, and will be entered in the column "Names, Present and Absent, and Rank," in the following order: First, noncommissioned officers, in the order of the grade given in paragraph 9, Army Regulations, 1913, the names under each grade-heading appearing in the order of the dates of warrants; second, all others, except buglers, first-class privates, and privates in alphabetical order of grade; third, buglers; fourth, first-class privates; fifth, privates. The names of the men under each grade-heading, except noncommissioned officers, will appear alphabetically. Lance corporals will be carried under the heading of "First-class privates" or "Privates," depending on the actual grade held.

The names and the headings will follow one another without interval, except when made necessary by the use of two or more lines, in the column of "Remarks" after a name.

Men on detached service will be carried on the roll of the organization to which they belong in their proper place with remarks showing them on detached service and place, if known.

In all cases the last name will be written first, e. g., Smith, John A., and *not* John A. Smith. Care will be taken to have the names correctly spelled and the dates of enlistment correct, and the signatures must correspond exactly with the names in the column, "Names, Present and Absent, and Rank."

7. DETACHMENT ROLLS.

The names of men mustered for pay at stations where their companies or organizations are not mustered may be borne on one consolidated pay roll.

All detachment pay rolls for detachments composed of various organizations will show in a column ruled for that purpose the company, battery, troop, or other organization to which each man belongs.

8. RULING EXTRA COLUMNS.

The use of dots and the word "ditto" is prohibited, but when items of the same character, such as subsistence credit sales, clothing due United States, post exchange, and post laundry, are to be made against a sufficiently large number of men, columns may be ruled therefor in the space under "Remarks."

9. BY WHOM AND TO WHAT DATE PAID.

In the cases of soldiers who were last paid to a date different from that to which the organization was last paid, or by a different quartermaster, as shown by the certificate of the commanding officer on the first page, the date to which last paid and the name of the quartermaster will be stated against their names under "Remarks."

10. COLUMN "REMARKS"—DATA OPPOSITE NAMES.

All data affecting a soldier's pay will be entered in the column "Remarks" in the manner indicated under the caption "Model Remarks" below.

Only such remarks as affect a soldier's pay will be entered.

Opposite the name of the person concerned will be carefully noted—

(a) All changes of rank or grade. In case of appointment the number, date, and source of order will be stated; in case of reduction the date of receipt of order at soldier's station will also be stated.

(b) All authorized stoppages, fines, sentences, with number, date, and source of order.

(c) All cases of absence of enlisted men without leave or absence sick without pay for one day or more.

(d) All cases of confinement of one day or more by civil authorities and whether such prisoners have been held for trial, tried, or discharged without trial, and, when tried, whether acquitted or convicted, with dates of absence.

(e) Everything else affecting the pay of every enlisted man, so as to insure justice to him and to the United States.

As many lines as may be necessary to avoid crowding will be taken after each name, and only one line of written matter will be placed on one ruled line. When the matter is typewritten, remarks exceeding one line will be single spaced without regard to the ruled lines on the paper.

11. CLOTHING ACCOUNT.

For regulations concerning the settlement of a soldier's clothing account, see paragraphs 1159-1169, Army Regulations, 1913.

12. RETENTION IN SERVICE BEYOND DATE OF ENLISTMENT.

When soldiers are retained in the service with the colors to make good time lost, the cause of such retention must be stated. In case a soldier who must be kept in the service beyond the date of expiration of term of enlistment in order to make good time lost and is in confinement at or after date of expiration of term of enlistment, the date of restoration to duty status, if so restored, will be stated.

13. CHANGES SINCE LAST MUSTER FOR PAY.

(a) Names of men belonging to a command will be immediately followed by those of the men who have ceased to belong to it since last muster for pay. These will be classed in the following order: (1) Discharged, (2) furloughed to the reserve, (3) transferred, (4) died, (5) retired, (6) deserted, (7) missing. Under each heading the names will appear in the order prescribed in paragraph 6 above.

(b) The character of discharge (honorably discharged, discharged, or dishonorably discharged) will be noted on the roll.

(c) In these cases: (1) Desertion; (2) dishonorable discharge; (3) discharged for desertion; (4) missing; (5) and discharge, honorable discharge, or furlough to the reserve when the stoppages equal or exceed the amount due soldier; the soldier's account will be stated in full, showing rank or grade, date to which last paid, and by whom. All stoppages and charges (special care being taken to note all dues to post exchanges, company fund, etc.), and credits for deposits, etc., and the balance due the United States or due the soldier on account of clothing, and when the desertion, discharge, or furlough occurs within the first six months of enlistment the money value of clothing drawn since enlistment must also be stated; also dates and places will be given, the number, date, and source of order or other authority.

(d) In case of honorable discharge (except as prescribed in (c) above and (e) below), discharge or furlough (except as prescribed in (c) above), transfer, death, or retirement, only the rank or grade, the date of discharge, furlough, transfer, death, or retirement, and the number, date, and source of the order or other authority will be given.

(e) The names of men who are discharged during the period covered by the pay roll and who reenlist in the same company during that time will be carried in the body of the roll only.

14. DESERTERS.

The name of a soldier who has joined from desertion since last muster for pay will be placed in the body of the roll only. The following data will appear on the first roll: The same data that appeared on the rolls on which the soldier was dropped as a deserter; a statement of his new account opened after date of return to military control (the account at date of desertion and the account since return to military control being stated separately); the place and date of return to military control; and whether he was apprehended or surrendered. On subsequent rolls until the result of the trial has been published, or the case otherwise disposed of, will appear the remark, "Awaiting trial (or result of trial) for desertion. For statement of account, see rolls for ———, 191—." On the rolls following the final disposition of the case will appear a complete statement of the soldier's account at the date of such disposition of the case, the ante-desertion and post-desertion accounts to be stated separately, including the number, source, and date of the order announcing his return to duty, or the result of the trial.

The restoration to duty of a deserter by competent authority, namely, by the commander who would be authorized to direct that he be brought to trial, can be ordered only in case the desertion is admitted, and must not be confused with the removal (by the order of such commander or the War Department) of a charge of desertion erroneously entered on the rolls against a soldier.

15. When a soldier is not paid on a pay roll the organization commander must not attempt to settle the account by striking a balance between the undrawn pay and indebtedness, but the account as a whole must, except as provided in paragraph 14, be carried forward to succeeding rolls until the quartermaster can collect all dues to the United States and pay a balance to the soldier. (See A. R. 1374, 1913.)

16. Where changes occur in a quartermaster's figures in the "Balance paid" column, the company commander or officer witnessing the payment must certify in the margin of the roll the amount actually paid the soldier.

MODEL REMARKS FOR ARMY PAY ROLLS.

17. These model remarks are meant to cover only the more common cases. Cases arising not covered herein will be stated according to facts of record.

Any pay or allowances that may have accrued during a previous enlistment can not be paid by a quartermaster, but a claim for same must be made on the Auditor for the War Department.

18. ABSENCE.

(a) *In hands of civil authorities.*—In hands CAuth fr Jan 10 to Feb 3/16, convicted (acquitted, released on bail, or released without trial).

(b) *Without leave.*—Awol Jan 10 to 15/16.

(1) Absence in the hands of civil authorities or without leave will be stated by dates of departure and return as above. The day of departure is a day of absence and day of return is a day of duty, without regard to hours, in case of enlisted men absent without leave or in hands of civil authorities. For example, "Awol Jan 10 to 15/16," is an absence of five days, January 10 the day the soldier left post being a day of absence and January 15 the day he returned to post being considered a day of duty. Hours of departure and return will not be stated. An absence of less than 24 hours will not be entered on the pay roll.

(c) *Sick, not in line of duty, G. O. 31, 1912, and 45, 1914.*—Sick, not LDGO 31/12 and 45/14, Jan 1 to 15/16, inc.

(1) G. O. 31, 1912, requires the inclusive dates sick to be stated as distinguished from the method of stating absence without leave indicated above. In deducting pay for time sick, quartermasters will treat the dates given as inclusive whether stated so or not.

19. ALLOTMENTS.

(a) *Commencement.*—Alot \$12 per mo for 20 mos fr Jan 1/16 to Aug 31/17.

(1) Allotments should begin with the first day of a month, except that no allotment will begin prior to date of current enlistment.

(2) An allotment should be entered on the pay roll for the month in which it commences without waiting for any report from the Quartermaster General that the allotment papers have been received.

(3) A soldier should not be allowed to allot his entire monthly pay, except for good reasons warranting such action, so that he may have at least a small balance due him each month to meet unforeseen indebtedness.

(b) *Discontinuance.*—

(1) Alot \$12 per mo for 20 mos fr Jan 1/16; almt discontd with Apr 30/17, letter QMG Apr 15/17.

(2) Almt of \$12 per mo for 20 mos fr Jan 1/16, collected to Aug 31/17, discontd with May 31/17, letter QMG June 15/17. Due Sol \$36 deducted for almt for June, July, and Aug /17.

(3) Discontinuances close on the last day of the month, unless a soldier deserts, severs his connection from active duty with the Army, or the allotment is discontinued before the end of the period of allotment. In all such cases his commanding officer will make immediate report direct to the Quartermaster General, as required by Army Regulation 1350, stating the date to which the allotment has been collected, and in case of desertion, discharge, furlough to the reserve, death, etc., the date thereof.

(4) An allotment should not be entered on pay rolls subsequent to the expiration of the period for which the allotment was originally made, except when necessary to secure deduction or collection of the allotment for a month or months within such period yet due.

and, so, instruct him to present it to the quartermaster. Should he take it to have lost it, the officer will cause his affidavit to that effect to be taken before the district attorney's clerk and forward it to the quartermaster.

The sergeant will state the reason for making the book and show that the soldier had not sold or assigned it. Upon this evidence the quartermaster may pay, and the responsibility for the correctness of amounts credited on the statement will rest with the officer certifying it. Deposit books will be taken up by the quartermasters who make final payment and are forwarded to the adjutant general's office as part of the quarterly report in a column headed "List of Deposits," but will be entered in the space for remarks with citation of the order authorizing the disposition of the charge as desertion.

INSTRUCTIONS.

1. In the case of the death of any soldier, it shall be the duty of his immediate commander to secure his effects and to prepay the inventory required by the 126th Article of War, according to prescribed form, and to notify nearest relative of the fact of death. Duplicates of the inventory, with final statements, will be forwarded directly to The Adjutant General of the Army. (Par. 162, A. R.)—[A third copy of the inventory will be retained by the officer.]

2. Officers charged with the care and custody of the effects of deceased soldiers are required, under the provisions of the 127th Article of War, to deliver the same, or the net proceeds thereof, to the legal representatives of the deceased. Should the effects of a deceased soldier not be claimed within a reasonable time, they will be sold by a council of administration under the authority of the post commander, and the proceeds transferred to the commander of the company to which the deceased belonged, by whom they will be deposited with a paymaster to the credit of the United States. (Par. 163, A. R.)

3. In all cases of a sale by a council of administration a detailed statement of the proceeds, duly certified by the council and commanding officer, will accompany the paymaster's receipt forwarded by the company commander to The Adjutant General of the Army. The statement will be indorsed: "Report of the proceeds of the effects of _____, late of company _____, _____ regiment of _____, who died at _____, the _____ day of _____, _____." (Par. 164, A. R.)

4. The accounts of deceased soldiers are settled by the Auditor for the War Department, and the following is the order of distribution provided for by the act of Congress approved June 30, 1906 (34 Stat. L., 750): Where the amount due the decedent's estate is less than five hundred dollars and no demand is presented by a duly appointed legal representative of the estate, the accounting officers may allow the amount found due to the decedent's widow or legal heirs in the following order of precedence: First, to the widow; second, if the decedent left no widow, or the widow be dead at the time of settlement, then to the children or their issue, per stirpes; third, if no widow or descendants, then to the father and mother in equal parts; *provided* the father has not abandoned the support of his family, in which case to the mother alone; fourth, if either the father or mother be dead then to the one surviving; fifth, if there be no widow, child, father, or mother at the date of settlement, then to the brothers and sisters and children of deceased brothers and sisters, per stirpes: *Provided*, That this act shall not be so construed as to prevent payment from the amount due the decedent's estate of funeral expenses, provided a claim therefor is presented by the person or persons who actually paid the same before settlement by the accounting officers.

When the amount due to the decedent's estate exceeds the sum of five hundred dollars legal administration of the estate is necessary.

Officers are advised that, in the cases of single men, it is a safe rule to dispose of the effects as prescribed in paragraph 163 and leave the responsibility of distribution to the Treasury Department. (Par. 166, A. R.)

5. When the effects of a deceased soldier have been destroyed, or there are no effects, the facts will be fully set forth on the form for inventory of effects.

REPORT OF DEATH AND DISPOSAL OF REMAINS.

18. MILITARY CORRESPONDENCE.

NOTES ON MILITARY CORRESPONDENCE.

Headings, subject, and number of letter.—The letter will begin with the place and date; below this, beginning at the left margin, will come the word “from,” followed by the official designation of the writer, or in the absence of any official designation, the name of the writer with his rank and regiment, corps, or department; below this, also beginning at the left margin, will come the word “to,” followed by the official designation or the name of the person addressed. Next will come the subject of the communication, indicated as briefly as possible and in not to exceed 10 words. The words “from,” “to,” and “subject” will begin on the same vertical line. The sending office number of the communication will appear in the upper left-hand corner.

In case of letter paper, the upper third, and in case of foolscap, the upper fourth of the sheet, will be devoted solely to the matter described above.

Body.—Then will come the body of the letter, which, when typewritten, will be written single spaced, with a double space between paragraphs, which will be numbered consecutively.

Signature.—The body of the letter will be followed by the signature. If the rank and regiment, corps, or department of the writer appear at the beginning of the letter, they will not appear after his name; but if they do not appear at the beginning of the letter, they will follow under his name.

Omission of ceremonial forms.—All ceremonial forms at the beginning and end of letters, such as, “Sir,” “I have the honor,” “I would respectfully,” “Very respectfully,” etc., will be omitted.

Use of only one side of sheet.—Only one side of the paper will be used, the writing beginning about 1 inch from the top.

Office marks.—The stamps bearing office numbers will be placed on the back of the lower fold of the first sheet. The received and received back stamps will be placed immediately below the body of the letter, and, in the case of indorsements, immediately after the proper indorsement. When a communication of two or more sheets is filed, the back of the lower fold of the first sheet will be on the outside, thus exposing to view the office numbers.

Brief.—The matter described under “Heading, subject, and number of letter” will constitute the brief of the letter.

Inclosures.—All inclosures will be numbered and will be given the proper office marks. Inclosures will be noted on the communication as shown on the model.

Indorsements.—The writing width of indorsements will be the same as that of letters. The first indorsement will begin about one-half inch below the rank after the signature of the writer of the letter, and succeeding indorsements will follow one another serially, with a space about one-half inch between indorsements. The serial number of the indorsement, the place, the date, and to whom written, will be shown as in the model. Should one or more additional sheets be necessary for indorsements, sheets of the same size as the letter will be used.

Numbering of pages.—The pages, beginning with the first, will be numbered midway about one-half inch from the bottom. In referring to an indorsement by number the number of the page will also be given. Thus “5th Ind., page 3”.

Carbon copies.—All letters and indorsements that are typewritten, except letters of transmittal, reports of taking leave of absence, periodical reports, and other communications of a similar nature, will be made with two carbon copies; one copy will be retained for the records of the office in which the letter was written, and the other will be forwarded with the communication for the files of the first office in which a complete copy of the communication is required for the records, but such copy will not be regarded as an *inclosure*.

Correspondence book.—The correspondence book is issued by The Adjutant General's Office. In this book is entered with ink or indelible pencil a brief of each item of correspondence in respect to which a record is necessary and a notation of the action taken thereon. Each item will be numbered from one forward continuously and without break for any new year. A space of three lines will be left below each entry for use in continuing the record. Each item will be indexed under its subject, and when necessary under the name of the writer and names of persons mentioned therein. The index entries will bear numbers corresponding to those of the items. The correspondence book will be supplemented by a "Document file." The papers of the file will be numbered to correspond with the number of the items and of the index entries, and will be filed according to their serial numbers. The files will contain the original documents or communications when these are retained, and carbon or other legible copies of all letters, indorsements, or telegrams sent with regard to same. When more than one paper pertaining to the same item is placed on file, the papers will be placed in an envelope, if practicable, and the number of the item noted thereon.

This form will be used as a DAILY FIELD RETURN, SPECIAL FIELD RETURN, or MONTHLY FIELD RETURN, as required.

When used as a MONTHLY RETURN, particular care will be taken to give the name of every regiment or detached company in full, and the brigade, division, and field army to which it belongs.

This form will be used upon the establishment of evacuation of a post or temporary camp, and upon the temporary or permanent increase or reduction of a ration; a copy to be forwarded at once directly to The Adjutant General of the Army.

The location and post-office address of a new post or camp must be stated.

In active campaigns this form will serve as a kind of "hot return," and will be used for recruits, independent companies, posts, districts, brigades, divisions, field armies, departments, or armies, and will be made out in triplicate on the 10th, 20th, and last day of each month (and after

each action) from the latest returns which have been obtained at headquarters on those dates—one for the immediate commander, one to be sent directly to The Adjutant General of the Army, and one to be retained

20a. REPORT OF KNOWN DISTANCE RIFLE FIRING.

References.—Army Regulations, 1913, paragraphs 349-351, 353, 1345; Small Arms Firing Manual.

REPORT OF INDIVIDUAL CLASSIFICATION IN RIFLE PRACTICE

OF

Company "D" 5th Engineers.
(Organization.)

Washington Bks June 30 1918
(Station.) (Date.)

SUMMARY.

	Number of Commissioned Officers.		Number of Enlisted Men.
Expert riflemen,	3	2	15
Sharpshooters.	2	5	39
Marksmen.	1	7	59
First-class men.		1	14
Second-class men.			11
Unqualified.		1	14

INSTRUCTIONS.

1. This report will be prepared by the company commander.
2. Where the regiment is serving together, the company commander will forward the report to the battalion commander, who, after verifying it from the company target records will forward it to the regimental commander.
Where a battalion is serving away from regimental headquarters, but in the same territorial department, the battalion commander will forward the report through the post commander to the regimental commander. If the regimental headquarters is in a different department, the battalion commander will forward the report, through his post commander, to the regimental commander, and, in addition, will forward a duplicate through the post commander to the commander of the department in which he is serving.
3. Where a company is serving away from the other companies of the battalion the report will be forwarded to the commanding officer of the post where the company is stationed, who will verify it from the company target records, certify to its correctness, and forward it to the commanding officer of the battalion to which the company belongs. A duplicate of the report will be forwarded to the commander of the department in which the company is serving, in the manner indicated in the preceding section in the case of a battalion, if the regimental headquarters is not serving in the same department.
3. Whenever, under the foregoing, a duplicate will be required, it will be the duty of the company commander to prepare it, and it should accompany the original to the post commander.
4. The regimental commander will include the figures of this report in his consolidated report. He will forward the report itself with the consolidated report to the department commander if the company is serving in the same territorial department as the headquarters of the regiment; otherwise it will be filed at regimental headquarters.
5. The report will contain the names of all officers and enlisted men qualifying as expert riflemen, sharpshooters, and marksmen in the practice season for which the report is rendered. The names of officers so qualifying will be entered first and will be ruled off from the remainder of the report. The names of the enlisted men who so qualified will be entered in groups according to classification. No entry will be made of the names of those enlisted men who did not qualify in the practice season covered by the report, but who are entitled to classification, and additional pay therefor, as a result of a qualification attained in a prior season in the same enlistment, nor of the names of those who are below the grade of marksman.
6. In the summary will be entered the number of officers and enlisted men entitled to be classified as expert riflemen, sharpshooters, marksmen, first-class men and second-class men, and the number unqualified.
7. Officers and enlisted men attached to a company for practice will be noted in red ink, separately.

[NOTE.—The above spaces are intended only for use for record purposes at the headquarters of the officer appointing the special or general court-martial, and it is not intended that they shall be filled in by summary courts, trial judge advocates, etc.]

INSTRUCTIONS.

1. Submission of charges.—All charges for trial by court-martial will be prepared in triplicate, using the prescribed charge sheet as a first sheet and using such additional sheets of ordinary paper as are required. They will be accompanied—

(a) Except when trial is to be had by summary court, by a brief statement of the substance of all material testimony expected from each material witness, both those for the prosecution and those for the defense, together with all available and necessary information as to any other actual or probable testimony or evidence in the case; and

(b) In the case of a soldier, by properly authenticated evidence of convictions, if any, of an offense or offenses committed by him during his current enlistment and within one year next preceding the date of the alleged commission by him of any offenses set forth in the charges.

They will be forwarded by the officer preferring them to the officer immediately exercising summary court-martial jurisdiction over the command to which the accused belongs, and will by him and by each superior commander into whose hands they may come either be referred to a court-martial within his jurisdiction for trial, forwarded to the next superior authority exercising court-martial jurisdiction over the command to which the accused belongs or pertains, or otherwise disposed of as circumstances may appear to require. (M. C. M., par. 75.)

2. Investigation of charges.—If the officer immediately exercising summary court-martial jurisdiction over the command to which the accused belongs or pertains decides to forward the charges to superior authority, he will, before so doing, either carefully investigate them himself or will cause an officer other than the officer preferring the charges to investigate them carefully and to report to him, orally or otherwise, the result of such investigation. The officer investigating the charges will afford to the accused an opportunity to make any statement, offer any evidence, or present any matter in extenuation that he may desire to have considered in connection with the accusations against him. If the accused desires to submit nothing, the indorsement will so state. In his indorsement forwarding the charges to superior authority the commanding officer will include:

(a) The name of the officer who investigated the charges;

(b) The opinion of both such officer and himself as to whether the several charges can be sustained;

(c) The substance of such material statement, if any, as the accused may have voluntarily made in connection with the case during the investigation thereof;

(d) A summary of the extenuating circumstances, if any, connected with the case;

(e) His recommendation of action to be taken. (M. C. M., par. 76.)

3. Disposition of copies of charges.—(a) When trial is to be had by summary court the charges will be completed as the record of trial, a copy thereof will be completed as a copy of the summary court record for the company or other commander, and the other copy will, with the least practicable delay after action has been taken on the sentence, be completed and transmitted as the required report of trial to the officer exercising general court-martial jurisdiction over the command, there to be filed in the office of the judge advocate for a period of two years, at the end of which time it may be destroyed;

(b) When trial is to be had by special or general court-martial the charges and one copy thereof will be referred to the trial judge advocate, the copy to be furnished by him to the accused or his counsel, and the other copy will be used for record purposes in the office of the officer appointing the trial court, the top fold of this copy of the charge sheet, in case of trial by general court-martial, being detached at the proper time and forwarded with the record of trial to the Judge Advocate General of the Army. (M. C. M., par. 79.)

4. Disposition of evidence of previous convictions.—(a) The evidence of a previous conviction referred to a summary court or to the judge advocate of a special court will, after trial, be returned by him to the appointing authority and will, after action by the latter on the case, be returned to the company or detachment to which it pertains;

(b) The evidence of a previous conviction referred to the judge advocate of a general court-martial will, if a company record, after trial be returned by him direct to the company or detachment to which it pertains, and a certified copy thereof will be attached to the record of trial. (M. C. M., par. 306.)

[NOTE.—This form supersedes the blank form for record of trial by summary court (Form No. 99, A. G. O.), the blank form for report of trial summary court (Form No. 59, A. G. O.) and the blank form for statement of service (Form No. 15, A. G. O.)]

INSTRUCTIONS.

Failure to rejoin proper station on the expiration of the furlough works a forfeiture of any claim for commutation of rations for the period of the furlough.

This paper will be preserved by the soldier for use in collecting commutation of rations, which will be paid by any quartermaster having funds for the purpose, after the certificate on page 3 hereof has been duly executed.

The transport quartermaster or agent will certify hereon the dates between which subsistence was furnished on the transport, and the date the vessel arrived in the United States.

The commanding officer of the post at which the soldier is directed to report on the expiration of his furlough will cause the certificate on page 3 hereof to be executed, showing date the soldier reported.

The authority under which a furlough is granted (whether under Army Regulations or in pursuance of the orders of a superior) should be cited on the face of the furlough by the officer granting it. If the *period* for which the furlough is given is within the competency of the authority cited, no copy of the order is needed to accompany the furlough when presented to a disbursing officer for payment of commutation of rations, but if the *period* is manifestly beyond the competency of the authority cited, the furlough should, when presented for payment of commutation of rations, be accompanied by copies of all orders in pursuance of which it was given.

-----, Quartermaster.

*Strike out clause not applicable.

†A full day's ration is the unit. Paragraph 371, Army Regulations, 1913, prescribes three meals per day—breakfast, dinner, and supper. The credit in rations to be given an organization for messing men for a part of a day only should therefore be determined by dividing the total number of meals furnished by 3, and taking the quotient to the nearest whole number. A remaining fraction of $\frac{1}{2}$ would thus be disregarded, whereas $\frac{1}{2}$ remaining would count as a ration.

A. REQUISITION FOR CLOTHING.

Q. M. C.—Form No. 165b.

STATEMENT

OF

CLOTHING CHARGED TO ENLISTED MEN

OF

Company "D" 5th Engineers.

(Organization)

Individual Slips No. 1 to 50, incl.,

From Apr. 20, 1916, to May 6, 1916, incl.

Requisition for clothing dated May 5, 1916

INSTRUCTIONS.

1. The organization commander will make a statement on this form (single copy) for all clothing drawn by or issued to enlisted men of his command.
2. A separate statement will be made for each bulk issue. (See Instructions, Form No. 213.)
3. When clothing is drawn individually from the quartermaster, each Individual Clothing Slip will be entered opposite its corresponding number on this form immediately after the duplicate slip has been returned from the quartermaster. For individual issues, the statement will be completed at the end of each calendar month, or whenever an organization leaves the vicinity of the issuing quartermaster for an extended period.
4. At the end of a month or period and also whenever the statement is made in connection with Requisition for Clothing (in bulk) (Form No. 213), the organization commander will determine the total money value of clothing charged to enlisted men and complete the statement.
5. When clothing is issued gratuitously, the money value thereof will be separated from the money value to be charged and both amounts entered on the statement in the space opposite the man's name, the gratuitous issue being entered in red ink or indicated by the letter "G."
6. The total money value of the clothing charged to enlisted men (including the gratuitous issues) must be equal to the total money value of clothing drawn from the quartermaster.
7. The organization commander will file this statement with the requisitions to which it pertains.

INSTRUCTIONS.

This form is for use as follows:

- (a) By soldier to make request (single copy) to organization commander for clothing for either individual or bulk issues. For this purpose the original and duplicate will be detached and used indiscriminately. *When clothing is drawn individually*, the soldier's request will be preserved by the organization commander until the "duplicate" is received back from the quartermaster. *When clothing is drawn in bulk*, the soldier's request will be preserved and used for making the issue. The officer making the issue will complete the Individual Clothing Slip as prescribed in instructions on Form No. 213.
- (b) By organization commander to make requisition for individual issue of clothing.

REQUISITION BY ORGANIZATION COMMANDER.

The Individual Clothing Slip will be serially numbered by each organization commander for the month or period and are made in duplicate by carbon process. The original and duplicate (not detached) will be sent to the quartermaster. The quantities and sizes desired will be entered at the organization office, except that for men not yet fitted the size may be filled in at the time of issue after proper size has been determined by try-on.

Clothing issued to the soldier and removed from the quartermaster's storehouse will not be received back by the quartermaster.

The quartermaster or his representative issuing the clothing will be held responsible that the soldier drawing the clothing is identified.

If a large number of men of an organization are to draw clothing, Individual Clothing Slips will be sent to the quartermaster in advance to permit the clothing to be prepared for issue.

At the time of issue the quartermaster or his representative will, by carbon process, enter on both copies the quantities, sizes, and unit prices of the articles issued, initial the slip, and obtain the soldier's signature on original and duplicate. A line will be drawn through each blank space in column "Quantities issued" on original and duplicate by the quartermaster or his representative before the soldier signs the receipt. The "original" will be retained by the quartermaster and the "duplicate" returned to the organization commander or his representative at the time of issue or returned at the close of the business day in a sealed envelope to the organization commander.

The original will be abstracted daily by the quartermaster on Abstract of Clothing Issued (Form No. 180), as explained on that form. A check mark will be placed in the space provided at the bottom of the slip to note the fact of entry on the abstract.

The duplicate, after having been returned by the quartermaster, will be retained by the organization commander, who will immediately determine the total money value and enter the data on Abstract of Clothing Drawn (Form No. 180) on Statement of Clothing Charged to Enlisted Men (Form No. 165b), as explained on those forms, and on the Descriptive List of the enlisted man. Check marks will be placed in the spaces provided at the bottom of the form to note the fact of entries. The abstract, statement, and duplicate slips will be kept filed together.

At the end of the month, or whenever an organization leaves the vicinity of the issuing quartermaster for an extended period, the organization commander will compare his Abstract of Clothing Drawn (Form No. 180) with the quartermaster's Abstract of Clothing Issued (Form No. 180), as explained on that form.

S—2371

NOTES.—On form Q. M. C. 165, 2 cents (the value of 1 yard of red tape and 1 tag, identification) is a gratuitous issue and is not included in the amount charged the soldier. It is, however, entered on the soldier's service record under the heading "Gratuitous issue."

On form Q. M. C. 213, the company commander includes in his receipt to the quartermaster the sum of 98 cents (49 yards of red tape and 49 identification tags), these articles having been gratuitously issued by the company commander to 49 enlisted men of his organization.

As required by Circular No. 10, Quartermaster General's Office, 1912, a record will be kept in each company of the sizes of clothing required for each enlisted man thereof, as ascertained by actual trial of the various articles of clothing. Instructions contained in General Order 26, War Department, 1912, will be strictly followed by company commanders in fitting shoes to the men of their commands.

INSTRUCTIONS.

This card will accompany the animal as long as it remains in the service. The original card will be kept by the accountable officer, who will furnish a copy thereof to the responsible officer in each case. The animal will be weighed and measured in May of each year until seven years old. Organization commander will give character and condition over his signature at date of transfer. On final disposition the card will be properly completed and sent to the Chief, Quartermaster Corps.

*NOTE.—In taking girth, tape should be broad-placed just behind withers and under belly at girth place, and should be drawn tight enough to make respiration just noticeable by slight movement of tape. If animal is very fat, deduct $1\frac{1}{2}$ to 2 inches for true girth.

In measuring height use measuring standard.

From a careful consideration of all the evidence obtainable in the case and a thorough examination of the man, the Board finds:

That he is unfit for service as a soldier because of—

loss of sight of right eye.

That the disqualifying disability ~~did not~~ exist prior to enlistment, and ~~did not~~ originate in the line of duty.

That the Medical Officer,
who enlisted the man ~~is not~~ blamable. (867, A. R.)

The Board therefore recommends:

That the soldier be discharged on Certificate of Disability (copy of which is inclosed) for disability incurred in the line of duty; degree of disability: loss of sight in right eye

PUBLIC PROPERTY REGULATIONS AND FORMS.

*(Unit Equipment System.)*1. *Proposed general order putting new regulations into effect:*

GENERAL ORDER }
No. ———. }

WAR DEPARTMENT,
March ———, 1917.

General Orders No. 59, War Department, 1907, and No. 52 of 1915 are hereby rescinded.

Equipment C in the possession of regiments, separate battalions, field hospitals, ambulance companies, or other tactical organizations, supplied with such equipment, will be accounted for as prescribed in paragraph 681, A to N, Army Regulations, Changes No. ———, A. R., 1913, dated ———, 1917. For all such units now in the service of the United States the new method of accounting will go into effect July 1, 1917. For any such units mustered into the service of the United States between now and July 1, 1917, the new method of accounting will be effective from the date of muster in. The voucher forms now issued by The Adjutant General, United States Army, and the various bureaus of the War Department will be continued in use until June 30, 1917. All articles of equipment C pertaining to such units being accounted for by other officers of a unit will, on June 30, 1917, be regularly invoiced to the proper unit supply officer.

2. *General nature of system:*

(a) Each regiment, separate battalion, etc., has but one accountable officer, to be known as the unit supply officer for equipment C pertaining to each bureau. This equipment is issued by him to organization commanders on memorandum receipt.

(b) The return will be of a loose-leaf character, with one item on each sheet.

(c) Semiannual returns are required, but none when there is a change in accountable officers within an accounting period.

(d) The return will be audited by an officer of the unit before being forwarded.

(e) Equipment C, for full authorized strength, is to be kept on hand in garrison and taken to mobilization and concentration points. In the field, equipment A, for actual strength only, will be kept on hand by organizations.

(f) Replacement will be secured by:

Exchanging unserviceable property for serviceable.

Submitting vouchers to cover property lost or missing.

Certificate in an emergency, in either of preceding cases, if serviceable property is needed before an exchange can be made or vouchers prepared.

(g) Replacement will habitually be secured through the accountable (unit supply) officer, who will act as the agent of the organization commanders, but such transactions will not ordinarily appear in his return.

(h) Garrison equipment will be held on memorandum receipt by organization commanders from post supply officers.

(i) The unit supply officer will perform the duties of post or camp supply officers only when no other officer is available.

(j) The same system is made to apply to coast defenses, with this difference, that there is no separate unit supply officer, and equipment C is not replaced on a separate return, the return forms now prescribed being continued in use.

(k) While a fixed unit is not the basis of accounting, and in this respect the proposed system is more flexible than the present one, it is expected that the number of any item authorized in Unit equipment manuals for an organization will be closely adhered to, and marked variations are required to be reported by the regimental officer examining the accounts and investigated by inspectors.

3. *The following forms will be used:*

(a) Return, includes inside sheets and cover front and back. These are new forms, not unlike the return form now used by the Quartermaster's Department.

(b) Transfer of property, invoice, and receipt blank. This is a new form, similar to that now in use in each of the departments concerned.

(c) Survey report. Replaces present survey report, A. G. O. Form 196, with slight changes.

(d) Statement of charges. This is a new form, to replace similar forms in use in each bureau concerned.

(e) Certificate of expenditures. This is a new form, to replace similar forms in use in each bureau concerned.

(f) Requisition-receipt (expendable articles). Replaces present A. G. O. Form No. 543.

(g) Due certificate. Replaces present A. G. O. Form No. 544.

(h) Record of property issued on memorandum receipt. Present A. G. O. Forms 448, 448a, and 448b. Instructions have been placed on each blank, covering its use.

4. *Samples of forms and extracts from Army Regulations:*

(A) RETURN.

CHANGES IN ARMY REGULATIONS (PROPOSED).

681A. There shall normally be but one accountable officer for equipment C of each bureau for a regiment, separate battalion, field hospital, ambulance company, or other tactical organization for which equipment C is prescribed, and such officer will account on a separate return for all articles listed in the various equipment manuals as equipment C, and he will be referred to in the following paragraphs as the "unit supply officer." When one officer serves as supply officer for all bureaus he will be designated as "regimental, field hospital, etc., supply officer," but when different officers serve as supply officers of the different bureaus, they will be designated as "regimental, field hospital, etc., quartermaster," etc. Should local conditions make it desirable or necessary to have an accounting officer for any detachment serving separately from its parent organization, one may be designated for that purpose and the articles of equipment C that pertain to such detachment will be transferred to the designated accountable officer of the detachment, but as soon as the conditions making

this separate accountability necessary cease, the account will be closed by transferring back to the unit supply officer of the parent organization the accountability for the property which had been carried separately. Batteries, troops, companies, or detachments will hold on memorandum receipt from the unit supply officer of the unit of which they form a part articles of equipment C prescribed in the equipment manuals as pertaining to them. (C. A. R. No. —, March —, 1917.)

681B. All property received by such unit supply officer will be accounted for on authorized blanks of a loose-leaf character, with a separate sheet for each article and columns for date, voucher numbers, debit entries, credit entries, and balances. Vouchers to the account will be numbered serially, beginning with number 1, through the six months' accounting period, regardless of transfers from one officer to another, and will be posted to the account currently. The account will be kept in duplicate—an original and a carbon copy. On June 30th and December 31st of each year the account will be examined as provided in paragraph 681D, and the original record, together with all vouchers pertaining thereto not previously forwarded, mailed direct to the chief of the bureau to which the property pertains. Before being mailed, the correctness of the account, together with a notation of the serial numbers of the vouchers pertaining thereto, will be certified to by the unit supply officer. (C. A. R., No. —, March —, 1917.)

681C. When an officer is relieved as unit supply officer, his account will be closed by drawing a line below the last entry on each sheet, immediately below which will be entered the balance of the article, with the notation opposite thereto "Received from predecessor." When a transfer has been made, the officer making the transfer will certify to the correctness of the account, and will, after the account has been audited, mail direct to the chief of the bureau to which the property pertains the original vouchers to the account up to the date of transfer. These will be accompanied by a letter of transmittal, which will enumerate the vouchers, give date of the transfer, and name of the officer to whom the transfer was made. The receiving officer will acknowledge receipt of the balances shown on the return account by signing the receipt attached thereto, and will furnish a signed copy of such receipt to the transferring officer. (C. A. R., No. —, March —, 1917.)

681D. All returns will be examined in the regiment or other similar organization by a suitable officer (preferably by a field officer) designated for that purpose by the commanding officer thereof. This examination will be made at the end of each accounting period, also in case of a transfer of accountability from a unit supply officer to his successor. The examining officer will see that all balances have been correctly brought forward, that all property on debit vouchers has been taken up on the account, and that all property dropped is covered by authorized credit vouchers which comply with the regulations. In so far as these features of the account are concerned, and to the extent of the vouchers actually examined, this officer's examination will be final, and action in the War Department bureaus will be limited to seeing that all property invoiced to unit supply officers is actually taken up by them, and that accountability is properly placed in accordance with the final action taken on survey reports. He will certify on the account the fact of examination and the result of same. He will also see that the authorized allowances are entered on each sheet of the return, and on the completion of the examination report in writing to his commanding officer whether or not the balances on hand are in agreement with those prescribed in the unit equipment manuals, mentioning in detail, if not in agreement, the more important that are surplus or that are short, and stating in general terms the minor discrepancies. These reports will be kept on file until the next regular inspection of the command by an officer of the Inspector General's Department, whose duty it will be to investigate and make report on the causes of the discrepancies, and the steps taken by the commanding officer to remedy them. (C. A. R., No. —, March —, 1917.)

681E. Under normal peace conditions all organizations will keep their equipment C, as prescribed for their actual strength, complete and in serviceable condition. The remaining equipment required for the unit for its full authorized strength will be held by the unit supply officer. If ordered for field duty, this full equipment will be taken to the mobilization and concentration points. If ordered on active field duty, where equipment B and equipment A not required for the actual strength can not be taken, it will be disposed of by the unit supply officer as conditions require, by turning it in to a camp supply officer or depot, or by disposing of it as otherwise ordered. The same course will be followed at any time during active field service, should equipment become surplus. (C. A. R., No. —, March —, 1917.)

681F. Unit supply officers will obtain replenishment of equipment C by furnishing the post, camp, division, depot, or other proper supply officer in exchange for the articles, either—

(1) The unserviceable articles to be replaced, if not repairable at the post. No receipt is given in this case, but should the condition of the articles not be manifestly due to fair wear and tear in the service, the issuing officer will require (a) a survey report, or (b) the necessary evidence for a survey report, or (c) if that can not be furnished, a certificate as provided in paragraph (3) below; or

(2) A voucher on which a supply officer may take credit for the articles. This covers cases where no unserviceable article is to be turned in. The voucher should be turned in to the supply officer may be (a) certificates of authorized expenditures; (b) certificates of destruction for articles authorized to be so dropped by the bureau to which the property pertains; (c) statements of charges against enlisted men; (d) abstracts of sales when authorized; (e) survey reports; (f) "I. & I." reports; (g) due certificates completed by a receipt for the articles to be replaced, or (h) other authorized voucher; or

(3) A certificate that replenishment is immediately necessary, and that the necessary voucher or the corresponding unserviceable articles (with survey report, if required) will later be furnished. This certificate will be filed with the receipt for the supplies so issued, or may be written on the receipt itself. If the voucher or corresponding unserviceable article is supplied before the end of the accounting period, the accountable officer will return the receipt and certificate. If not furnished before the end of the accounting period, the certificate and receipt may be used as a credit voucher, and the bureau to which the property pertains will hold the signer of the certificate and receipt accountable. (C. A. R. No. —, March —, 1916.)

681G. Each voucher used for replacement under paragraph 681F (2) will contain a certificate signed by the responsible officer that he has received all the articles on due certificates therefor, but such a certificate is not required on a survey report when the unserviceable article is turned in in accordance with paragraph 681F (1), as in that case the survey report is not to be used as a credit voucher. (C. A. R. No. —, March —, 1917.)

681H. When, in compliance with competent orders, equipment C has been reduced by any part of it being invoiced by the unit supply officer to another accountability, it will be replaced by the unit supply officer certifying the facts on his requisition, or, if the replacement is to be made by verbal or other informal method, a like certificate will be placed on the receipt for the property. If equipment C has been increased in any way, above that prescribed, the surplus, when no longer necessary, will be invoiced to some accountable officer at the first opportunity. (C. A. R. No. —, March —, 1917.)

681I. Replenishment of equipment C will habitually be obtained through the unit supply officer, but no entry of the transaction will be made in his account unless necessary. In emergencies, an organization commander may obtain replenishment by any of the methods prescribed for the unit supply officer, but when such action is

taken, he will promptly report the transaction to the unit supply officer. (C. A. R. No. —, March —, 1917.)

681J. All garrison equipment and other Government property (including ammunition for target practice), except equipment C, will be held by organization commanders on memorandum receipt from the post or other supply officers. If ordered to field duty, all articles of the garrison equipment held on memorandum receipt by organizations will be turned over to the post supply officer, and none of it will be taken with the organization, except as may be specially ordered by the next higher commander. Replenishment of garrison equipment will habitually be obtained by organization commanders according to the methods prescribed in paragraph 681F for unit supply officers in replenishing equipment C. (C. A. R. No. —, March —, 1917.)

681K. When a regiment or other organization having an equipment C accountability is separated from a supply depot and the situation demands a reserve stock on hand, such reserve stock will be accounted for on the same return and in the same way as equipment C, but so soon as the necessity for carrying this reserve stock ceases, the surplus will be invoiced to the proper accountable officer. The fact of having on hand a reserve will not be authority to issue on memorandum receipt to a company or other smaller organizations any property in excess of its prescribed equipment C. If articles not listed as part of equipment C are necessary, they will likewise be carried on the same return, but as soon as a post, depot, or camp supply officer is designated, such property will be invoiced to him. (C. A. R., No. —, March —, 1917.)

681L. No unit supply officer will be appointed post or camp supply officer except when no other officer for this duty is available. (C. A. R., No. —, March —, 1917.)

681N. All expendable articles, spare parts, cleaning materials, and preservatives pertaining to equipment C will be issued to unit supply officers (or in coast defenses to organization commanders). These officers will furnish receipts to the accountable officer, but will not further account for the material. The receipts will serve as vouchers on which the material will be dropped by the accountable officer. In cases where allowances are fixed by orders or regulations the receipts will contain a certificate signed by the unit supply officer (or in coast defenses by the organization commander), that the articles receipted for, considering those previously drawn for the period, do not exceed the prescribed allowances. In such cases, approval by the commanding officer is not required. If, however, articles or material in excess of the allowances are required, they will be supplied on requisition, which must show the necessity for the excess issue, and be approved by the division or department commander (C. A. R., No. —, March —, 1917.)

1086. Unless otherwise specially directed by the Secretary of War, there will be at each military post or station but one accountable officer in the Quartermaster Corps, and he will account for all quartermaster supplies there in use or in store, *except the equipment C as prescribed for an organization, and this will be accounted for by the unit supply officer of that organization.* (C. A. R., No. —, March —, 1917.)

1106. All means of public transportation at a post, *except that provided as part of the equipment C of a tactical unit,* will be accounted for by the quartermaster, and will be under his charge except as provided in paragraph 1427. *Means of transportation provided as a part of the equipment C of a unit will be accounted for by the unit supply officer.* Commanding officers will cause mounted organizations to be provided daily with the proper facilities for policing stables and hauling forage. (C. A. R., No. —, March —, 1917.)

1179. (Changed by C. A. R., No. 26, W. D., 1915, and C. A. R., No. 30, July 24, 1915.) There will be furnished by the Quartermaster Corps to all duly authorized bands * * * The commanding officer of the band will be responsible for all the property specified, *and it will be accounted for by the unit supply officer on the same return and in the same manner as the articles pertaining to the equipment C of the unit.*

When an instrument has become unserviceable it will be submitted to a surveying officer. * * * Requisitions for band instruments will be submitted to the designated supply depots through the department headquarters. (C. A. R., No. —, March —, 1917.)

1282. The quartermaster will be accountable for and will carry on his property accounts all cooking apparatus supplied by the Quartermaster Corps, and will furnish to commanding officers of organizations and detachments the necessary authorized articles of the same on approved requisitions, the issues to be made on memorandum receipts. Bake ovens will be dropped from his property accounts when permanently installed at posts. *Articles of cooking apparatus pertaining to the equipment C of a unit will be accounted for by the unit supply officer.* (C. A. R., No. —, March —, 1917.)

1535. Articles of personal equipments or other ordnance property which a detached soldier carries with him, or for which he may be indebted to the United States at the time of his transfer, will be entered on *quadruplicate* invoice and receipt transfer blanks (Ordnance Department Form No. 152). The blanks will, when practicable, indicate the destination of the soldier. *Each of the four copies* will be signed by the accountable officer, or the issuing officer in his name, and by the soldier acknowledging receipt of the stores, including these missing. *Two* of these designated blanks will be forwarded with the descriptive list or descriptive and assignment card of the soldier; *the other two* constitute the voucher (*original and retained copies*) under which the accountable officer will drop from his return the articles enumerated on the voucher, or secure replacement of the articles by turning them over to the post or other supply officer.

On arrival of the soldier at his destination, all articles appearing on the transfer blank accompanying the descriptive list or descriptive and assignment card will be taken up by the officer accountable for the property of the organization to which he reports, who will receipt for the same on this blank and forward one of the two signed copies of it immediately to the Chief of Ordnance, and keep the other copy for file with the retained copy of his return. All articles missing on arrival will be charged against the soldier in the usual manner.

When enlisted men are transferred in detachments, with an officer or noncommissioned officer in charge, from a recruit depot, and each man is equipped identically and none of them are indebted for other articles of ordnance property, the articles of ordnance property carried by them will all be entered on but one invoice and receipt blank, prepared in *quadruplicate*, on Ordnance Department Form No. 152-D. Each of the *four* copies will be signed by the accountable officer and by the officer or noncommissioned officer in charge of the detachment acknowledging receipt of all the stores. A receipt roll will be made, in duplicate, on Ordnance Department Form No. 153, and duly signed by each of the enlisted men to cover his individual responsibility. *Two* copies of the signed invoice and receipt blank and one copy of the signed receipt roll will be furnished to the officer or noncommissioned officer in charge of the detachment, and the other copies of these signed papers will constitute the voucher under which the accountable officer will drop the property from his return. *One* copy of the signed Form No. 152-D, together with the signed copy of the receipt roll will be filed as the voucher with his return forwarded to the Chief of Ordnance, and the other copy of the signed Form No. 152-D filed with his retained copy of the return. On arrival of the detachment at its destination the *two* copies of the invoice and receipt blank and the receipt roll will be turned over to the post ordnance officer or the designated supply officer, who will take up all the articles appearing on the transfer blank and receipt for the same on this blank and forward *one* copy of it immediately to the Chief of Ordnance, and keep the other copy of the invoice and receipt blank, together with the copy of the receipt roll (Form No. 153) for file with the retained copy of his property return. All articles missing on arrival will be invoiced by the post ordnance officer, or

other supply officer, to the officer accountable for the property of the organization to which the particular soldiers report, and charged against these men on the pay rolls of the organizations to which they are assigned and dropped from the return of the accountable officer under statements or charges made by the commanding officers of the organizations and turned over by them in duplicate to the accounting officer. In each case where the recruit is indebted to the United States at the time of this transfer, or the articles in his possession are not identical with those in the possession of the other men of the detachment, or where the detachment is not in charge of an officer or noncommissioned officer, individual transfer blanks will be used.

Unless the arrangements for the journey require the use of ordnance property en route, none will be transferred with such soldiers.

A copy of the transfer blank will be kept by each accountable officer for his retained return. (C. A. R., No. —, March —, 1917.)

In case more than one transfer occurs with an accounting period, an additional copy of this form, with certificates properly signed, will be added to the return to cover additional transfer.

INSTRUCTIONS.

1. All property received and on hand will be accounted for on A. G. O. Form No., using a separate sheet for each article and arranging alphabetically, except in case of ordnance property, which will be arranged alphabetically under each class and section as shown in manuals or price list.

2. When used by unit supply officers in accounting for equipment C, the authorized allowances will be entered at the bottom of each sheet, using the space opposite equipment C. Other supply officers for whom allowances are prescribed will use spaces opposite "Max." and "Min."

3. Vouchers to the return will be numbered serially, beginning with number 1, through the six months' accounting period regardless of transfer from one officer to another, and will be posted to the return currently. The return will be kept in duplicate—an original and a carbon copy.

4. On June 30 and December 31 of each year the return will be audited, as provided in A. R. 681D, and the original record, together with all vouchers pertaining thereto not previously mailed, sent direct to the chief of the bureau to which the property pertains for file and record.

5. When an officer is relieved as accountable officer, his return will be closed by drawing a line below the last entry on each sheet immediately below which will be entered the balance of each article with the notation opposite thereto, "Received from predecessor."

6. When a transfer has been made, all original vouchers to the return up to the date of transfer will be mailed direct to the chief of the bureau to which the property pertains, accompanied by a letter of transmittal, signed by the transferring officer, enumerating the vouchers, giving the date of transfer, and the name of the officer to whom transfer is made. The receiving officer will acknowledge receipt of the balances shown on the return by signing the receipt attached thereto, and the account will be audited before vouchers are mailed.

7. The return, for convenience, will be kept paged and when it becomes necessary may have pages inserted by adding letters after the page number, as 10a, 10b, etc. In case of transfer of the property the pages then making up the return will be renumbered serially in a distinctive manner, as a1, a2, a3, * * * a25, etc., and so described in the certificates covering the transfer.

 If used as invoice, erase word "receipt."

GENERAL INSTRUCTIONS.

1. This form will be used for all invoices and receipts, making necessary notation when used for "Transportation."

2. Where two or more words are necessary in the name of an article, place distinctive noun first, except as provided in paragraph 31, below.

3. Invoicing officers will enter their voucher number on all copies and sign the two copies used as invoices. Receiving officers will enter their voucher number on all copies received by them and sign both copies of the receipts and return them to the invoicing officer.

4. Receiving and invoicing officers will file, respectively, one copy of invoice and one copy of receipt with their returns forwarded to the chief of the bureau and one copy with their retained returns.

5. When used as a shipping invoice, gross weights or cubic measurements, when required, must be stated in the last column.

6. Three additional copies of this form, when used as a shipping invoice, will be furnished for use of the quartermaster making the shipment.

SPECIAL INSTRUCTIONS.

(When used for quartermaster property, supplies, and subsistence stores.)

11. Arrange articles alphabetically.

12. For supplies transferred to depots and supply points, to posts or stations under the jurisdiction of department commanders, the form will be prepared in sextuplicate, by carbon process when practicable.

13. When used as voucher to return, the copies will be transmitted as follows:

(a) To the Quartermaster General of the Army, one invoice plainly marked "Finance" on face and brief (forwarded by depots and supply points only).

(b) To the department quartermaster, one invoice.

(c) To the receiving officer, two signed invoices and two receipts.

When by reason of sales to other bureaus or departments a transfer settlement by the Treasury Department is necessary, an extra original signed receipt must be transmitted to the Quartermaster General (A. R. 671). When such transaction is with the Navy Department, an extra signed carbon receipt is required in addition to the extra signed original.

14. Subsistence stores will be invoiced separately from other quartermaster supplies.

15. For property furnished by depots and supply points to independent stations the form will be prepared in quintuplicate and disposed of as in paragraph 31, omitting the copy for the department quartermaster.

16. For property transferred between posts in the same department the form will be prepared in quintuplicate and disposed of as in paragraph 13, omitting the copy marked "Finance." When the posts are in different departments, the same disposition will be made. The department quartermaster to receive a copy is the department quartermaster of the department into which the stores are transferred.

17. Prices must be stated on both invoice and receipt.

18. In column designated "Item No." enter appropriate item numbers as published in Circular No. 10, O. Q. M. G., 1915. This data must be furnished in all cases. It is not necessary to enter initials of appropriations.

SPECIAL INSTRUCTIONS.

(When used for ordnance and ordnance stores.)

31. Use nomenclature in ordnance price list and arrange articles alphabetically under proper classes and sections, as shown therein.

32. Prices will be entered only in cases of sales, transfers, or shipments to the Philippine Islands.

33. The number of copies to be prepared will be as prescribed in paragraph 1548, A. R., unless modified by special instructions.

CHANGES IN ARMY REGULATIONS (PROPOSED).

681F. Unit supply officers will obtain replenishment of equipment C by furnishing the post, camp, division, depot, or other proper supply officer in exchange for the articles, either—

(1) The unserviceable articles to be replaced, if not repairable at the post; no receipt is given in this case, but should the condition of the articles not be manifestly due to fair wear and tear in the service, the issuing officer will require (a) a survey report, or (b) the necessary evidence for a survey report, or (c) if that can not be furnished, a certificate as provided in paragraph (3) below; or

(2) A voucher on which a supply officer may take credit for the articles. This covers cases where no unserviceable article is to be turned in. The voucher to be turned in to the supply officer may be (a) certificates of authorized expenditures; (b) certificates of destruction for articles authorized to be so dropped by the bureau to which the property pertains; (c) statements of charges against enlisted men; (d) abstract of sales when authorized; (e) survey reports; (f) "I. & I." reports; (g) due certificates completed by a receipt for the articles to be replaced, or (h) other authorized voucher; or

(3) A certificate that replenishment is immediately necessary and that the necessary voucher or the corresponding unserviceable articles (with survey report, if required) will later be furnished. This certificate will be filed with the receipt for the supplies so issued, or may be written on the receipt itself. If the voucher or corresponding unserviceable article is supplied before the end of the accounting period, the accountable officer will return the receipt and certificate. If not furnished before the end of the accounting period, the certificate and receipt may be used as a credit voucher, and the bureau to which the property pertains will hold the signer of the certificate and receipt accountable. (C. A. R., No. —, March —, 1916.)

681C. When an officer is relieved as unit supply officer, his account will be closed by drawing a line below the last entry on each sheet, immediately below which will be entered the balance of the article, with the notation opposite thereto "Received from predecessor." When a transfer has been made, the officer making the transfer will certify to the correctness of the account, and will, after the account has been audited, mail direct to the chief of the bureau to which the property pertains, the original vouchers to the account up to the date of transfer. These will be accompanied by a letter of transmittal, which will enumerate the vouchers, give date of the transfer and name of the officer to whom the transfer was made. The receiving officer will acknowledge receipt of the balances shown on the return account by signing the receipt attached thereto, and will furnish a signed copy of such receipt to the transferring officer. (C. A. R., No. —, March —, 1917.)

681H. When, in compliance with competent orders, equipment C has been reduced by any part of it being invoiced by the unit supply officer to another accountability, it will be replaced by the unit supply officer certifying the facts on his requisition, or, if the replacement is to be made by verbal or other informal method, a like certificate will be placed on the receipt for the property. If equipment C has been increased in any way above that prescribed, the surplus, when no longer necessary, will be invoiced to some accountable officer at the first opportunity. (C. A. R., No. —, March —, 1917.)

717. (Changed by C. A. R., No. 30, July 24, 1915.) On the approved recommendation of a surveying officer, the following classes of property will be destroyed: (1) Clothing infected with contagious diseases; (2) stores that have become so deteriorated as to endanger health or injure other stores; and (3) unserviceable property of no salable value submitted to a surveying officer under the provisions of paragraph 678. The decision of the commanding officer will be final as to whether such property has salable value.

When the disposition of unserviceable articles is covered by specific instructions

* * * * *

A certificate of the witnessing officer that the property has been destroyed as authorized will be appended to the report. (C. A. R., No. —, March —, 1917.)

30. SURVEYS OF PUBLIC PROPERTY.

A company commander who draws public property on memorandum receipt from a supply officer for the use of his organization is responsible for the property and in case of its loss, damage, or destruction he will have to pay for same unless relieved of his responsibility by an approved survey. (Pars. 657 and 710, A. R.)

The property which can properly be acted upon by a surveying officer may be divided into five classes: (1) Property worn out by fair wear and tear in the military service which has no salable value (par. 678, A. R.); (2) property which has been rendered unserviceable from causes other than fair wear and tear (par. 678, A. R.); (3) property lost through the desertion of a soldier (par. 116, A. R.); (4) individual equipment lost by enlisted men when they request a survey before being charged with the property (par. 686, A. R.); (5) other lost or damaged property drawn by a company commander for the use and equipment of his organization. There are other circumstances in which articles of public property can or should be surveyed but these five cases cover practically all those which will come before a company commander.

Paragraphs 678 and 717, Army Regulations, provide for the disposition of unserviceable public property and of property which can be destroyed on an approved survey.

Paragraph 711, Army Regulations, provides for the appointment of the surveying officer. The surveying officer as far as the company commander is concerned will be appointed by either the post or regimental commander who is the convening authority spoken of in paragraph 716, Army Regulations, and elsewhere.

When an officer responsible for public property desires to have same surveyed he makes out a survey report and sends it to the proper convening authority, usually the regimental commander on posts where more than one regiment is stationed for the appointment of a surveying officer. This report must contain a short recital of the circumstances attending the loss, etc., of the article, the list of witnesses, if any, and such certificates or affidavits as the responsible officer thinks necessary or desirable to properly present his case. Surveys will be submitted as soon as possible after the loss, damage, etc., of the article and in every case within 30 days after the discovery of such loss or damage, unless exceptional circumstances, which will be explained by the officer's certificates, prevent such action within that period. (Par. 713, A. R.) The survey report will be prepared in triplicate and separate reports will be made out for each class of property. (Par. 716, A. R.)

An officer appointed as surveying officer should make his investigation of the case as complete as may be possible or necessary and should not make his recommendations until he has assured himself that they are proper. In case there is insufficient evidence on the survey report to justify the making of a recommendation he can return the survey to the convening authority and ask to be furnished with further evidence, affidavits, or certificates. (Par. 713, A. R.)

It must be remembered that the functions of a surveying officer are purely advisory and his actions consist entirely of recommendations, these recommendations embodying the opinions he has formed from his investigation of the case. (Par. 715, A. R.) After the action of the surveying officer, the survey report goes to the convening authority who will either approve or disapprove of the former's recommendations.

If the surveying officer recommends that the responsible officer be relieved of his responsibility and if the convening authority approves, the responsible officer can use this approved survey as a property voucher, provided the value of the property listed on the survey does not exceed \$500, in which case the next higher administrative commander will review the case and with his action it is complete. (Pars. 718, 719, A. R.)

Paragraphs 718, 719, Army Regulations, provide for the disposition of the different copies of a survey and enumerate different cases in which the survey must be sent to the next higher administrative commander for review.

Paragraph 722, Army Regulations, provides that properly approved survey reports may be submitted as vouchers to property returns but they are not to be considered conclusive until accepted by the Secretary of War. Reports of surveys are examined in that bureau of the War Department issuing the property and if the examination brings out serious errors in either the investigation or finding, they will not be accepted as sufficient vouchers and the officer submitting them may be duly notified in order that he may make explanations or appeal to the Secretary of War.

REPORT OF SURVEY

on Property
(Class of property.).....
(Station or organization.)

....., 191

.....
(Name and rank of accountable officer.)

INSTRUCTIONS.

1. *Use, number of copies, and disposition.*—This form will be used in making reports of survey on all classes of public property acted upon by a surveying officer. Each report will be made in triplicate and disposed of as prescribed in Army Regulations. In the column headed "Date and Circumstances" will be entered a statement of the circumstances attending the loss, damage, or destruction of the articles surveyed, and, in the case of ordnance stores, the date of their receipt.

2. *Classes of property.*—Property of different staff departments, or property carried on separate returns, will not be entered on the same report, but separate reports will be made for each class of property.

3. *Documentary evidence.*—Where documentary evidence is submitted, it will be marked "Exhibit A," "Exhibit B," etc., and will be so noted and referred to by the surveying officer in his report. All documentary evidence will be inserted and fastened between the leaves of the report.

4. When any stores are included that have been lost, destroyed, or damaged by means other than fair wear and tear in the service, the facts will be

sworn to as indicated on page 2. If the oath is subscribed to by the responsible officer the certificate need not be subscribed to. If the oath is subscribed to by any other individual than the responsible officer, he will subscribe to the certificate.

5. In case property that is unserviceable through fair wear and tear in the service only is covered by the survey the certificate only will be completed by the signature of the responsible officer, but the surveying officer will exercise great care in examining such property and state in his findings whether he found that its unserviceable condition is due to fair wear and tear in the service. In case its unserviceable condition is not found to be due to such cause he will fix responsibility for such damage upon the proper party.

6. *Army Regulations.*—The survey of property is covered in paragraphs 710–726, Army Regulations (1913), which define the duties of surveying officers, fix the power of the convening authority, and give instructions relative to the preparation and disposition of survey reports. For survey of band instruments, see also A. R. 1179; of china and glassware of outgoing organizations, see also A. R. 1023; of silken colors, standards, and guidons, see also A. R. 239.

7. For classes of unserviceable property that may be destroyed or turned in to depot on approved recommendation of a surveying officer, see A. R. 678, 717, 907, 1520, 1534, and 1537, as amended.

8. *Brass trimmings.*—Before leather or other stores belonging to the Ordnance Department are destroyed or broken up, all rings, buckles, and other trimmings of brass will be cut off by enlisted labor and turned over to the post ordnance officer, and the cer-

tificate of the officer witnessing the destruction will contain a statement to the effect that these articles have been removed and turned over to the post ordnance officer. (For the disposition of this material by post ordnance officers, see par. III, General Orders No. 9, War Department, 1911.)

9. *Loss of small arms.*—When a survey is made on the loss of small arms, the report must show whether or not the arms were stored at the time of the loss in arm racks or arm lockers furnished by the Ordnance Department for their safe-keeping, or were being used at the time in the performance of military duty. In all cases the report must show clearly whether or not every reasonable precaution was taken to prevent the loss. In this connection see paragraph 5 of the G. O. No. 20, War Dept., May 26, 1916, regarding issue of arm racks and arm chests for the safe-keeping small of arms etc.

10. *Survey reports subvouchers to statements of charges.*—Reports of survey authorizing charges against enlisted men, including deserters, are subvouchers to the Statement of Charges and will accompany it.

11. *Desertions.*—Whenever public property is lost in consequence of the desertion of an enlisted man, a surveying officer will report on the missing property, but its value can not be charged against the deserter in the absence of an approved report of survey to that effect. (Pars. 116 and 687, A. R., 1913.)

12. Quantity, name of article, and money value will be entered by the officer making up the survey report. Column B (disposition) will be completed by the surveying officer and columns C and D by the supply officer, who makes replenishment and uses the report as a voucher.

[Page 2 (charges).]

INSTRUCTIONS.

(Approved by the Secretary of War)

1. All property when first charged against enlisted men, including deserters, must be entered on this Form No., A. G. O., and the reports of survey required by A. R. 116, 686, or 687, of 1913, authorizing charges against deserters or enlisted men, will be made subvouchers to this statement of charges. Each charge entered on this statement of charges will be entered on the monthly pay roll of the organization.

2. Charges pertaining to property of one department only will be entered on this form.

3. In the column headed "Cause of charge" will be stated whether the articles were lost, damaged, destroyed, or taken by deserters; if charge is authorized by a report of survey, add the abbreviation "R. S."

4. The commanding officer of an organization provided with unit equipment will make out this Form No. A. G. O., to cover (a) articles of property which form a part of his unit equipment, or (b) articles for which he is responsible on memorandum receipt from the accountable post (supply) officer, or (c) expendable articles, (d) articles invoiced on Ordnance Department Form No. 152 and found missing. This form will be made in duplicate. The organization commander will sign the certificate of correctness on both copies and turn them over to the unit supply officer, who will present them to the post or other designated supply officer, who will issue all the available similar articles called for, if on hand; and said supply officer will enter on the line "Equipment C on due certificate" the remaining articles not replaced. The unit supply officer will fill in and sign the certificate acknowledging receipt of such articles received, on both copies. The voucher will then be turned over to the accountable (supply) officer, who will drop from his return only the articles entered on the lines "A" or "C" as indicated within. For articles entered on the line "Total on due certificate" the accountable (supply) officer will give the organization commander a due certificate, to be held until such time as these articles are actually replaced.

5. The accountable (supply) officer himself will make out and sign this Form No. A. G. O., to cover only property for which he is to be responsible and accountable officer.

6. When a charge is made on a pay roll against a soldier and not collected, entry of the charge will be made only once on the statement of charges, although the charge will appear on subsequent pay rolls.

7. When the charges are properly stated hereon this statement of charges signed by the proper officer will constitute a valid voucher for file with the return of the accountable officer.

..... PROPERTY EXPENDED AT (OR BY)

INSTRUCTIONS.

(Approved by the Secretary of War ————.)

1. If more than one sheet is necessary, the bottoms will be cut from all except the last, and all sheets securely fastened together.

2. Property may be expended on this form by any accountable officer. Columns C and D and the replacement certificate will be ignored when post or depot supply officers expend property on this form. Columns C and D, when used, will be filled in by the supply officer, who makes replenishment and uses the paper as a voucher.

3. Form ——— will be used in obtaining expendable articles, spare parts, and preservatives for the maintenance of an equipment C.

4. Property which may be dropped on account of consumption or expenditure is published by the various supply departments, and such property when consumed or expended for an authorized purpose can be dropped from the return of the accountable officer on this certificate to the extent of the authorized allowances.

5. The article reported as expended on this certificate will be arranged according to their classification where prescribed; otherwise, alphabetically.

6. When expenditures are dependent on the strength of an organization, it must be stated.

7. At the end of each accounting period, or when organizations depart for duty at another station, organization commanders will furnish to the accountable officer from whom they obtained ammunition a certificate of expenditures, properly executed, in duplicate, to cover all the ammunition (including bull's-eye score books) that has been actually expended by them for authorized practice firing, etc., during the period, and the supply officer will use these certificates as the vouchers for dropping such ammunition and score books from their returns.

8. Ammunition used in target practice will be expended separately from any otherwise expended as in action, and details of such expenditures will be entered in recapitulation table on this page.

9. In each case, where any ammunition is expended in excess of the amount authorized by the annual orders issued from the War Department, the special authority for such expenditures will be cited on this voucher opposite the expenditures, in the column headed "For what purpose expended." REQUISITION FOR ARTICLES FOR MAINTENANCE OF

(Q. M., Ord., Engr. or Sig.)

Property pertaining to return of

for period ending, 191....

1. This form will be used by the unit supply officer in obtaining expendable articles, spare parts, and preservatives for the maintenance of equipment C. Articles issued hereon will not be taken up on the account of the unit supply officer. (See A. R. 681K.) If articles of this class are, under the provisions of A. R. 681N, on the accountability of the unit supply officer they may be dropped on this form, using it as an expenditure voucher. It will be used in a similar manner by the organizations of a coast defense where there is no unit supply officer.

This form will not be used to cover articles of ordnance property issued or expended for the maintenance of the sea-coast armament.

2. When allowances of expendable articles are prescribed by orders or regulations the approval of the commanding officer is not necessary. When this requisition covers articles in excess of the prescribed allowances it must be approved by the division or department commander. (See A. R. 681N.) When no allowances are prescribed, the approval of the commanding officer is necessary.

3. The unit price, total value, and summary columns will be used only when the allowance is a money value one.

4. Separate requisition will be submitted for each bureau.

5. Separate requisition will be submitted on this form for each of the following classes of ordnance stores:

Repairs of arms. abb. RD.
Repairs of personal equipment. abb. RPE.
Repairs of horse equipment and harness
and pack outfits. abb. RHE.
Cleaning and preserving material
.....abb. C&P

6. This completed form is a valid credit voucher to the account of a post, camp, or depot supply officer, or when as authorized by a bureau it may be used as a sub-voucher to the retained consolidated expenditure voucher of the post, camp, or depot supply officer of the bureau.

Accountable { Myron Bertman
Officer { 1st Lieut. C of E. S.O.

Inspected at Washington Bks. D.C.

On May 5th, 1917.

By Col. Snow, I.G.D. special.

DIRECTIONS.

1. This form will be used for the inventory and inspection of property (except public animals) for condemnation in all the departments of the Army. To be made in duplicate.

2. Separate inventories will be made for the property pertaining to each staff department; for buildings as distinct from other property, and for "Subsistence Stores" as distinct from other property of the Q. M. Corps; also for the articles of ordnance, engineer, and signal property mentioned in paragraph 8 of these directions as requiring special authority of the Secretary of War for their submission for the action of an inspector.

3. Rifles to be inventoried singly. (a) The number of each rifle and its arsenal initial. (b) The date of issue of the rifle to the organization (date of invoice) and the number of target seasons it has been fired. This information to be given in column 1, using more than one line if necessary. See War Dept. Bulletins 24 of 1913; 15 and 31 of 1915.

4. An officer signing an inventory will add his official title, and, if commanding a company or detachment, the letter or number of the company and the regiment or corps should also be added.

5. All changes made in original entries on an inventory and inspection report will be duly authenticated by the signature of the inspecting officer. Erasures of entries thereon are prohibited. Blank lines, column 1, to be ruled out in red ink when no articles are entered thereon.

6. Public property which has been damaged, except by fair wear and tear, or is unsuitable for the service, before being submitted to an inspector for condemnation, will be surveyed by a disinterested officer, preferably the summary court officer. (A. R. 710.)

7. If an inspection of property follows the report of a survey thereon, one copy of the proceedings will accompany the inventory and inspection report which is transmitted for approval, and will afterwards be returned to be used as a voucher to the officer's returns. (A. R. 725.)

8. Special authority must be obtained for submission of property to an inspector, as follows:

Of the Secretary of War: Cannon and their carriages, machine and automatic guns with their carriages and mounts, but not including spare parts, accessories, implements and equipments required in their maintenance and operation; also ammunition for cannon. Electrical and mechanical installations and appliances furnished to the Coast Artillery Corps by the Engineer Department or the Signal Department and forming part of the permanent seacoast defenses. See A. R. 913.

Of Quartermaster General: Old and unserviceable typewriting machines issued by the Q. M. Corps. Cir. 3, O. C. Q. M. C., 1913.

Of Chief Signal Officer: Unserviceable telescopes, field glasses, telephones, expensive electrical apparatus, and aeronautical apparatus. (A. R. 1566 as amended by C. A. R. 37, 1915.)

FIRST INDORSEMENT.

Washington Bks. D.C. 5/5/17.

I CERTIFY that this inventory, consisting of 1 sheets, is correct in every particular; that each article enumerated has been examined by me personally, has never been previously condemned, and is, in my opinion, unserviceable or unsuitable for further public use here, and requires the action of an inspector.

Myron Bertman,

1st Lieut. Corps of Engr. D.C.

Responsible Officer.

SECOND INDORSEMENT.

I CERTIFY that I have carefully examined the articles enumerated within; that the disposition recommended is, in my judgment, the best for the public interest; that the articles recommended to be destroyed have no money value at or near the post, and that those found to be worthless have, as far as practicable, been destroyed in my presence.

Inspector.

THIRD INDORSEMENT.

The within named articles will be disposed of as recommended by the inspector.

By command of

I CERTIFY that all property herein recommended to be destroyed has been destroyed in my presence.

INSTRUCTIONS.

(Strike out words not applicable.)

(Line out words not used.)

1. Form No. 448, A. G. O., will be used for all quartermaster, ordnance, engineer, or signal property on memorandum receipt issued by (debit slip) or turned in to (credit slip) a post or unit supply officer for each separate transaction. The words "credit" or "debit," "issued to" or "turned in by," to be lined out according to the transaction. These memorandum receipt debit and credit slips will be filed as vouchers to the abstract record of memorandum receipts (Form No. 448b, A. G. O.), and will be numbered in one series for each. When so abstracted no other memorandum receipt will be required.

2. Form No. 448b, A. G. O., will be used by a post or unit supply officer as a consolidated abstract for all property issued on memorandum receipt, and also for separate abstracts for each organization which will be kept posted from day to day. The post abstract will show the total quantity of each article out on memorandum receipt and each organization abstract will show the total quantity in that organization. This form will also be used similarly by each organization.

3. In case of a transfer of property on relief of a post or unit supply officer, the receiving or unit officer will initial the balances shown on the post abstract of memorandum receipts. In case of the relief of an organization commander the receiving officer will initial the balances shown on the organization abstract of memorandum receipts.

4. When an organization changes station the organization commander will initial the balances shown on the supply officer's organization abstract of memorandum receipts for those articles to be transferred to another accountable officer, which will then be forwarded complete to the supply officer at the new station, together with the usual invoices and receipts for the property transferred.

Form No. 448a, A. G. O.

EXTRACTS FROM ARMY REGULATIONS.

281. There will also be kept in each company or detachment full information respecting all *equipment and other property* held on memorandum receipt showing lists of articles, date of receipt * * * will be destroyed under the direction of the commanding officer. (C. A. R., No. —, March —, 1917.)

661. A company or detachment commander is responsible for all public property pertaining to his company or detachment, and will not transfer his *responsibility* therefor to a successor during periods of absence of less than a month, unless so ordered by competent authority; when such absence exceeds a month, the question of responsibility is settled by the proper authority. (C. A. R., No. —, March —, 1917.)

681I. Replenishment of equipment C will habitually be obtained through the unit supply officer, but no entry of the transaction will be made in his account unless necessary. In emergencies, an organization commander may obtain replenishment by any of the methods prescribed for the unit supply officer, but when such action is taken, he will promptly report the transaction to the unit supply officer. (C. A. R., No. —, March —, 1917.)

681J. All garrison equipment and other Government property (including ammunition for target practice), except equipment C, will be held by organization commanders on memorandum receipt from the post or other supply officers. If ordered to field duty, all articles of the garrison equipment held on memorandum receipt by organizations will be turned over to the post supply officer, and none of it will be taken with the organization, except as may be especially ordered by the next higher commander. Replenishment of garrison equipment will habitually be obtained by organization commanders according to the methods prescribed in paragraph 681F for unit supply officers in replenishing equipment C. (C. A. R., No. —, March —, 1917.)

5. The authorized engineer, ordnance, and Signal Corps supplies and equipment are given in the Unit Equipment Manuals. The authorized Quartermaster supplies and equipment are given in G. O. 39, 1915, as amended.

COMMANDING GUARD

OFFICER OF THE DAY.

INSTRUCTIONS.

1. During the first tour of guard reported on this form, the names of all prisoners in confinement at the beginning of the tour will be recorded in one list (on the pages prepared for that purpose), and no new list will be made during the month. The names of general prisoners and all entries pertaining to them will be recorded with *red ink*; the names of all other prisoners (enlisted men) and all entries pertaining to them will be recorded with *black ink*. The names of the general prisoners in confinement at the beginning of the tour will be recorded at the head of the list of prisoners, beginning with name of the general prisoner who has the longest remaining period of confinement to serve, and following with the names of other general prisoners in the order of the length of their remaining periods of confinement. The names of the enlisted men then serving sentences of confinement will follow next in the same order. The names of the other prisoners then in confinement (enlisted men *not* undergoing sentences of confinement) will next be recorded in the order of the dates of their respective commitments; and the names of all prisoners, including general prisoners, will be numbered *consecutively*. The interval between a name and the one preceding it should not be greater than necessary. The minimum and normal allowance will be two of the ruled spaces for each prisoner. No attempt will be made by means of entries on the report other than by the prescribed column entries to designate or distinguish prisoners awaiting trial or result of trial.

2. The name of each prisoner confined after the list hereinbefore prescribed is made and during the month covered by the report will be recorded, without regard to classification, next after the name of the prisoner last entered on the original list, and will be numbered accordingly. Sufficient space will be left above the name of the first prisoner confined during each guard tour, including the first tour of the month, for this heading: "Confined during the tour of —" (described by dates, e. g., June 25-26, 1909). *All entries and parts of entries pertaining to general prisoners will invariably be made with red ink.*

3. When a prisoner is released or dropped during the period covered by the report, a notation to that effect will be made opposite his name in the column for remarks. This notation will set forth briefly the fact, with the date on which the prisoner is released or dropped, and, *except in the case of a prisoner released at*

expiration of sentence, the authority for releasing or dropping him. His *name* will then be *lined out* with *black ink* in the case of a general prisoner, and with *red ink* in all other cases. Whenever a prisoner is released or dropped the lining out of his name will be initialed immediately below the name by the officer of the guard or if there be no officer of the guard, by the officer of the day.

4. When in the case of a prisoner *not* serving sentence notice of his sentence is received, the term and date of expiration of the confinement, if any, will be entered in the proper columns opposite his name, and the authority therefor will be noted in the column for remarks. If the sentence includes dishonorable discharge and confinement, the entries will be made with red ink, and include in the column for remarks this additional entry: "General prisoner since ——" date of discharge).

5. The total number of prisoners for which the guard is accountable at any time may be ascertained readily by subtracting the number of names lined out from the total number of names entered, that is to say, from the number given to last name on the list.

6. Forfeiture of "good conduct time" and orders modifying sentence will be noted in the column for remarks opposite the appropriate name in the list of prisoners, but the date of expiration of sentence recorded will not be changed, except as provided in paragraph 9.

7. Gains and losses numerically reported in the "Summary of Prisoners" will be noted by name in the space for remarks opposite the summary, and after each name will be entered the *serial number* given the name in the list of prisoners, e. g., "Released: General prisoners Smith, 10; Jones, 21;" etc. Changes in the personnel of the guard will be noted in this space also. Hours and results of inspections and roll calls will not be recorded on this form, but they may, under the direction of the commanding officer, be made the subject of a memorandum report.

8. When it is known in advance that the strength of the daily guard that will be required is so great that one page of the Guard Report will be insufficient for the daily list of the guard, provision will be made to meet the deficiency by stitching into the middle of the Guard Report, before beginning its use for the month, a sufficient number of extra sheets, which will be obtained by requisition upon The Adjutant General of the Army. This will permit of using more than one page of

the report, under the caption "List of the guard," for the guard of each day. When more than one page of the report is used for the list of the guard of one day, the word "Continued" will be written after the words "List of the Guard" at the top of each additional page so used, and the numbers printed under the heading "No. of Post" on each additional page so used will be changed by prefixing the proper numeral to each of those numbers so that they will read 11, 12, 13, etc.

9. At the end of the month covered by any report, the names of all prisoners not lined out on that report will be transferred with all entries pertaining to them to a new report and will be entered in the new list, in accordance with instructions 1 and 2, and thereafter the remaining instructions, including this one, will apply. At this time the column entries which are affected by the remarks will be changed to conform thereto, and remarks so incorporated will not be repeated on the new list.
